BERLIN, Monday, Aug. 11.—A plan to overthrow the present government and further world revolution is contained in a secret Spartacan circular to its agents and district chiefs. The document, which was captured by the General Bureau for the Study of Bolshevism, begins by regretting that the government signed the peace treaty, thereby delaying the inevitable crisis.

Later Dispatches

Later Dispatches

The document sets forth a concrete plan, the first step of which would be to hasten an internal German crisis by tampering with the home guards, who are declared to be less reliable than formerly. The circular urges Spartacan organizations to agitate among the soldiers by leaflets and verbally. The railroad men, the document says, can already be counted as won for revolution.

The postal workers are depressed, according to the circular, which goes on to say that the programme with regard to the peasants is complete. The capture of the peasants is declared to be important.

The Times Free Information Bureau
619 South Spring Street

THE TIMES FREE INFORMATION BUREAU is for the accommodation and benefit of persons seeking information regarding travel, recreation and recuperation at the seashore or in the mountains. Particulars are given on hand for information and by correspondence to the general public regarding rates and attractions of railroad and steamship lines, hotels and pleasure and health resorts. Photographs, descriptive circulars and transportation literature are kept on hand for information and distribution. Time readers can obtain them in a few minutes, without the delay incident to writing for it. All the information necessary for a safe and enjoyable journey or vacation. This service is absolutely free. Literature may also be obtained at the New Times Building, Broadway at First Street.

PERSONS CONTEMPLATING VISITING LOS ANGELES ARE INVITED TO HAVE THEIR MAIL ADDRESSED TO THIS BUREAU.

Resorts

ARLINGTON HOTEL
SANTA BARBARA

An absolutely fireproof hotel—All Outside Rooms, affording plenty of light and air—Headquarters for Tourists from all parts of the world. Private Lavatories in connection with all rooms. Ideal climate the year round. Automobile road is now perfect, 3 1/2 hours run, Los Angeles to Santa Barbara. Unexcelled facilities for care of automobiles in hotel grounds.

DEMobilIZATION WILL END SOON.

All Combatant Troops Out in October, Says Baker.

List of Missing Soldiers is Greatly Reduced.

Marine Corps Heroes are Reviewed by President.

BY A. F. DAY WIRE.

WASHINGTON, Aug. 12.—Demobilization of the army "so far as combatant troops are concerned," will be completed the last of October, Secretary Baker announced today.

Final casualty reports from the central records office of the American Expeditionary Forces in France, made public by the War Department today, gave the total battle deaths as 48,458, total wounded 205,550 and prisoners 4,480.

"Only slight revisions" will be made in this report, it was announced.

MISSING LIST REDUCED. Recent corrections in the list of missing have reduced the number to only 127 names, as compared with 264,000 for France and 121,000 for England. To July 1 the army had reported 149,433 cases of disabled soldiers to the War Risk Insurance Bureau. It was estimated that final total would be close to 200,000.

HEROES ARE REVIEWED. First heroes of the world war to be reviewed in America by President Wilson, the marine brigade of the Second Division, marched today

over Pennsylvania avenue from the Capitol to the White House. Thousands lined the historic thoroughfare to greet the men who won undying fame by helping stop the German thrust toward Paris in the darkest hours of the great conflict. Congress paid tribute by adjourning for two hours while the veterans marched.

In moving that the Senate adjourn, Senator Lodge, the Republican leader, praised the marines as "some of the best and bravest troops in the world."

ARIZONA NEWS. (EXCLUSIVE DISPATCH.) PHOENIX (Ariz.) Aug. 12.—Secretary of War Baker, has taken a hand in the Arizona Adjutant-General fight, and the decision is strongly in favor of Gov. Campbell and his appointee, Capt. Walter S. Ingalls. A letter has been received by the Governor from the Secretary of War in which the information was conveyed that the War Department recognized the Governor as the head of the State military department without reservation. He stated further that hereafter all matters pertaining to the militia in Arizona would be sent to the Governor for his disposition or referring, and that communications from Adj.-Gen. Ingalls would be recognized as from the proper authority.

Communications received from Col. Charles W. Harris, who still is fighting in local courts, to retain the position of Adjutant-General, are to be forwarded to the Governor for any action he desires to take, waste baskets apparently not barred.

Gov. Campbell has announced his intention of attending the conference of western Governors in Salt Lake City Saturday, and that the two most important subjects he will present, as matters of interest to the west and the entire country, are the remarkable possibilities of reclamation in Arizona and the desirability of the highly important work the immediately appointing the National Waterways Commission in Washington that they may begin without delay the highly important work the Newlands Amendment provides for them.

The State Highway Department has received bids for cement for highway construction from a Texas firm that underbid all California competitors in the sum of 41 cents a barrel, a very appreciable saving in the large quantities used by the department in road construction.

THE RAW MATERIALS OF SUCCESS

NO MATTER WHAT YOUR OCCUPATION or how large your first deposit may be, some one of the fourteen hours between 8 A. M. and 10 P. M. that this bank remains open for business, will be the convenient hour for you to transact your banking business with us.

Here you will find a pleasant, willing answer to your inquiries and a continuous desire to be more to customers than merely a money warehouse.

Test our sincerity and see how thoroughly prepared we are to give you just the kind of service your needs require.

He stated further that hereafter all matters pertaining to the militia in Arizona would be sent to the Governor for his disposition or referring, and that communications from Adj.-Gen. Ingalls would be recognized as from the proper authority.

Communications received from Col. Charles W. Harris, who still is fighting in local courts, to retain the position of Adjutant-General, are to be forwarded to the Governor for any action he desires to take, waste baskets apparently not barred.

Gov. Campbell has announced his intention of attending the conference of western Governors in Salt Lake City Saturday, and that the two most important subjects he will present, as matters of interest to the west and the entire country, are the remarkable possibilities of reclamation in Arizona and the desirability of the highly important work the immediately appointing the National Waterways Commission in Washington that they may begin without delay the highly important work the Newlands Amendment provides for them.

The State Highway Department has received bids for cement for highway construction from a Texas firm that underbid all California competitors in the sum of 41 cents a barrel, a very appreciable saving in the large quantities used by the department in road construction.

ARIZONA NEWS. (EXCLUSIVE DISPATCH.) PHOENIX (Ariz.) Aug. 12.—Secretary of War Baker, has taken a hand in the Arizona Adjutant-General fight, and the decision is strongly in favor of Gov. Campbell and his appointee, Capt. Walter S. Ingalls. A letter has been received by the Governor from the Secretary of War in which the information was conveyed that the War Department recognized the Governor as the head of the State military department without reservation. He stated further that hereafter all matters pertaining to the militia in Arizona would be sent to the Governor for his disposition or referring, and that communications from Adj.-Gen. Ingalls would be recognized as from the proper authority.

METAL TRADES WORKERS STRIKE

Fail to Tie up Copper Mines in Butte Section.

Action Results from Refusal to Compromise.

Number Out is Small and Many Workers Loyal.

BY A. F. NIGHT WIRE.

BUTTE, Aug. 12.—Members of the metal trades unions in Butte, Anaconda and Great Falls left their jobs at the mines and the smelters at noon today, following a vote not to accept the compromise offer of wages and working conditions agreed to last week by the management of the Anaconda Copper Mining Company and the executive committee of the metal trades committee. The committee agreed to recommend the acceptance of the offer, but the men voted it down.

J. F. O'Brien, president of the Butte Metal Trades Council, said today that about 600 men had gone out in Butte; that he understood 850 had quit work in Anaconda and about 100 in Great Falls. All the crafts, including miners and mill and smeltermen, in the International Union of Mine, Smelter and Mill Workers, together with the carpenters, are working today as usual in the mining plants, having accepted two-year contracts with the company.

WALKOUT AT OAKLAND. (BY A. F. DAY WIRE.) OAKLAND, Aug. 12.—One hundred joiners and pipefitters, employed by the San Francisco Shipbuilding and Dry Dock Company, did not go to work today. The concrete yard officials characterize the walk-out as no strike. According to the company's representatives, the men went out because, under a ruling of the American Federation of Labor, they were to receive \$6.75 a day instead of \$5. The men have been placed under the jurisdiction of the Metal Trades Council if they continue at work at their regular wages. Rather than stay in the concrete yard and receive the strike wages, the men walked out and will secure work in building trades activities. Shipyard officials say that although the strike will be slow for several days, no permanent tie-up is expected.

PERSECUTION BY HEAD OF ASYLUM CHARGED. (BY A. F. NIGHT WIRE.) SAN JOSE, Aug. 12.—Charges that Dr. Leonard Stocking, superintendent of the Agnew State Hospital for the insane, is persecuting him for testimony in the case against Dr. Stocking during recent investigation of the institution's affairs, were filed with the State civil service commission here today by Alvin Finkel, one of the hospital attendants.

Dr. Stocking falsely accused him of being intoxicated on duty and negligent otherwise, Finkel charged.

LUKING FOR DIRECT. (BY A. F. NIGHT WIRE.) LINCOLN (Nebr.) Aug. 12.—Fred W. Luehring, for five years director of intermural athletics at the University of Nebraska, is to be director of the department of athletics and physical education of the University of Nebraska.

PROTEST ARCHDUKE'S RULE. Hungarians Fear Amalgamation with Austria and Creation of Autocracy.

PRAGUE, Monday, Aug. 11.—Large but orderly demonstrations occurred here today being led generally by the Social Democratic element in protest against the coup d'etat by which Archduke Joseph became the head of the Hungarian government.

At the beginning of the Rumanian invasion of Hungary the more conservative elements of Czechoslovakia were insistent that a Czech army advance from Bucharest to Hungary to occupy Stuhlweisburg, the capital of the county of the same name, thirty-five miles west-southwest of Budapest. The chairman of the report adds, also will take possession of other towns and districts in Western Hungary, in order to "combat communism."

VIENNA, Monday, Aug. 11.—The General Staff of the Rumanian forces of occupation, according to reports from Bucharest, has decided to occupy Stuhlweisburg, the capital of the county of the same name, thirty-five miles west-southwest of Budapest. The chairman of the report adds, also will take possession of other towns and districts in Western Hungary, in order to "combat communism."

NO RUMANIAN REPLY. (BY CABLE AND ASSOCIATED PRESS.) PARIS, Monday, Aug. 11.—The supreme council has not received a response to the notes sent to Rumania concerning the occupation of Budapest and consequently it made little progress today on the Hungarian situation.

There is no indication that the supreme council of the Peace Conference desires to have relations with the Hungarian government set up by Archduke Joseph before a report on the facts relative to its establishment has been received. The opinion is generally held, however, that Rumania is required to live up to the armistice agreement.

ARCHDUKE'S STATEMENT. (BY CABLE AND ASSOCIATED PRESS.) BUDAPEST, Monday, Aug. 11.—The old administrative officials have resumed their functions throughout the country.

The official journal today prints a statement made by Archduke Joseph saying: "As soon as the National Assembly meets after the elections, my will will automatically end and the decisions of the National Assembly will be sacred to all of us."

AMERICANS FEED CHILDREN. (BY CABLE AND ASSOCIATED PRESS.) PARIS, Aug. 12.—The American relief administration began today the task of feeding 20,000 children in Budapest, as part of its plan to give food to the children of Central Europe, it was announced here today. It was said this did not include general relaxation of the food blockade against Hungary.

THREAT OF WORKMEN. (BY CABLE AND ASSOCIATED PRESS.) VIENNA, Sunday, Aug. 10.—Only as long as Rumanian troops remain in Budapest will the present government remain in office, said Jacob Weitzer, president of the International Workers' Council of Budapest, today. "The Hungarian workmen's federation must be reckoned with now and for all time. When the war was over it had a membership of 55,000. It now has 700,000 and the workmen want to king."

Hundreds of Red Guards are fleeing daily from Hungary into Austria.

GINGER JAGGERS DENY ALLEGATION.

REDLANDS, Aug. 12.—Is a policeman a competent judge as to whether a man is drunk or not?

That is the question Judge P. G. Melver of this city will decide. Frank Slover and H. N. Smith were arrested by Officers M. E. Armstrong and George King on an intoxication charge. A bottle of alcohol and formaldehyde straight, and one of the same mixed with lemon juice and ginger, half of which was gone, was found in the possession of Smith.

The two men claim that they got the alcohol to make into liniment for a sick horse and that they tested it to determine the strength of the concoction. They claim they have six witnesses to prove that they were not drunk although they can not remember the details of the arrest. They demanded a jury trial.

STRIKE THREATENED IN TOKIO ARSENALS. (BY CABLE AND ASSOCIATED PRESS.) TOKIO, Friday, Aug. 9.—A committee representing 5,000 workmen in the military arsenals of Tokio today petitioned the government for an increase in wage ranging from 25 to 50 per cent. If their demands were not granted, it was stated a strike would be called.

The spread of the labor unrest to governmental works, including army workmen, has caused uneasiness to the present authorities.

The leading business men have counseled the government against entering into a day of general labor and the peaceful expression of the demands of the laborites.

PERSECUTION BY HEAD OF ASYLUM CHARGED. (BY A. F. NIGHT WIRE.) SAN JOSE, Aug. 12.—Charges that Dr. Leonard Stocking, superintendent of the Agnew State Hospital for the insane, is persecuting him for testimony in the case against Dr. Stocking during recent investigation of the institution's affairs, were filed with the State civil service commission here today by Alvin Finkel, one of the hospital attendants.

Dealer Influence Invaluable Advertising.

TAKING THE BLUE SKY OUT OF ADVERTISING

We are faced with the realization that today it costs too much to sell goods. Creating consumer demand is not difficult, but securing dealer acceptance involves effort and expense altogether disproportionate to its importance as a part of merchandising.

The Chicago Tribune believes it is a waste of money to advertise a product, distributed through the retail trade, without first supplying that trade with merchandise to satisfy the consumer demand to be created by the advertising. The Tribune puts this principle into effect through its Merchandising Service.

To introduce a new product into an overcrowded retail field, such as the drug or grocery becomes harder every day. But The Tribune advertiser, working under the direction of The Tribune's Merchandising Service, finds a comparatively easy route to the retail shelves—before his advertising appears.

A portfolio of advertisements to run is prepared, accompanied by a letter from The Chicago Tribune to the local dealer stating that the campaign is bona-fide and will appear according to the schedule promised. The salesman is thoroughly coached on the advertising and instructed how to use it to best advantage with the retailer. With this portfolio he is able to utilize The Tribune's extensive Dealer Influence—no small factor in selling the retailer in the Chicago market.

This Dealer Influence is a very real thing—a confidence in Tribune advertising born of long experience and repeated trial. The retailer knows that Tribune advertising will sell the goods from his shelves. Consequently, he is glad to stock a Tribune recommended advertised product, because he knows this product will have a ready demand and quick turnover and hence be profitable. This factor makes The Tribune the dominant name in the Chicago market.

Here are two instances of how The Tribune Merchandising Service helps to put the goods on the dealer's shelves before the advertising campaign opens.

This factor makes The Tribune the dominant name in the Chicago market.

Here are two instances of how The Tribune Merchandising Service helps to put the goods on the dealer's shelves before the advertising campaign opens.

SELLING A FOOD PRODUCT.

Eighteen salesmen were used in this campaign, conducted previous to the advertising. After three and one-half weeks, before the advertising appeared, 2046 retailers were secured. Each was sold an average order of 126 pounds. The cost of selling each retailer was \$0.95.

SELLING A TOILET ARTICLE.

This article is high grade, high priced, saleable only in very best stores and shops. The average number of salesmen used was four, in a campaign lasting six weeks, begun four weeks before any advertising appeared. Within a seventy-five mile radius of Chicago and in the city itself 607 retailers were secured, and each was sold an average order of \$1.93.

The Chicago Tribune is prepared to plan and supervise your advertising or sales campaign in The Chicago Territory.

BLUE SKY ADVERTISING
It costs too much to sell difficult, but securing dealer together disproportionate with money to advertise a product, displacing that trade with merchandise by the advertising. The Merchandising Service.

all field, such as the drug or grocery store, working under the direction of representative easy route to the retailer.
compensated by a letter from The Chicago Tribune and will appear according to the advertising and sales. With this portfolio he is able to sell a small factor in selling the retailer in the Tribune advertising born of the fact that Tribune advertising will move and to stock a Tribune recommended and will have a ready demand and quick sale. The Tribune the dominant medium in the advertising service helps to put the goods on the shelves.

PRODUCT.
Over twenty thousand dollars' worth of sales were made to jobbers and retailers combined. After the first sale appeared, 600 more relations were secured—a total of 600 in four weeks. The advertiser realized a net profit before the advertising ran.

ARTICLE.
Thirty retailers ordered of their jobbers voluntarily, and seven department stores were sold. Altogether 644 retailers and 30 jobbers were secured. These figures do not include the retailers who have since ordered of their jobbers since the advertising began. Considering the quality of the article and its present limited sale, this campaign was very successful.

Shaving Content
Only to the man who has broken away from the old soap-and-lather shaving methods and uses E-ZONAL, the totally new shaving cream.

Siberian Army Sends Plea for Assistance.

BAKER, EXPERT WITNESS.
Secretary of War Baker, classed as an expert on street-car troubles by reason of his inheritance of Tom Johnson's methods in Cleveland, had the stand much of the day. City governments are better rulers of traction street-car affairs than state regulatory commissions, Mr. Baker said. The 5-cent fare he classed as a psychological necessity, adding that the minimum in most cities would cut the heart out of the profitable short-haul business. LOCAL PROBLEM, SAYS BAKER. The street car problem is essentially a local one, Mr. Baker said. "Medicine for one community is poison for another. The solution of the street car problem is one of popular education."

FACE BIG PROBLEMS.
The note says that the northern region has been constantly faced with great difficulty owing to the vast extent of its thinly-peopled territory, which has hindered the forces of more numerous and more powerful forces, and owing also to the extreme poverty of the country's natural resources. The note says that, thanks to Allied assistance, so far public order and safety and normal social conditions have been re-established in the northern and now administrative ministry created, but that the situation will be very serious if Allied support hereafter shall not be forthcoming. "The note concludes: 'The provisional government is responsible for the fate of the region which has been confided in it and which has so far borne with patience all the burdens and miseries of war before its own conscience and before the eyes of the world to contribute its utmost to the reconstruction and renaissance of Russia. Therefore the provisional government of the northern region begs the Allied powers to weigh all the consequences and again to examine the advisability of abandoning North Russia and leaving it without financial and military support. The provisional government is firm in the belief that the Allied powers will find an issue from the present situation in accordance with the strong bonds with which they bound themselves to Russia during the titanic struggle for freedom and which ideals still brought to a successful end by them.'"

RUSSIANS HOPEFUL.
Although government officials look upon the situation as utterly pessimistic, the feeling in Russian circles is more hopeful. It is the belief of Russian officials that the Bolsheviks are responsible for their last desperate campaign, which may be likened to the attempt of the German army in 1918, to crush the Allied and French fronts in France. In that effort, it is recalled, the Germans expended their last energies and would completely have brought to a successful end by them. At the present time it is known the American government is not considering any important change in the assistance that the United States is giving in the maintenance and operation of the Siberian railway. It was admitted today, however, that the Russian government may be obliged, if the Omak government reverses its position, to withdraw toward the east. Some of the members of the railway expedition to Siberia are established in Omak. ATTACK ON LEGATIONS. From European Russia the following information was summarized today by the State Department from recent reports: "Authoritative confirmation of reports of invasion of foreign embassies and consulates by the Bolshevik authorities in Russia and information regarding the Bolshevik treatment of foreigners are given in a dispatch that the Department of State has received from Copenhagen. The dispatch summarizes a report to the Danish government from the Danish Consul at Warsaw, based on first-hand information from the Danish Red Cross mission to Petrograd, which has left Russia and just arrived in Warsaw: 'The report says that the Bolshevik police on June 2, and 3, made a domiciliary visitation and sealing in all legations and consulates at Petrograd and Moscow and in the branches of the American Red Cross at Petrograd, Moscow, Samara and Omsk. This was an encyclopaedic visitation to foreigners generally in Bolshevik Russia, many of whom were arrested and the majority of those foreigners in Petrograd were transferred to Moscow and interned in concentration camps. The Petrograd branch of the Danish Red Cross after succeeding in securing the release of a large number of foreigners with food was transferred to Moscow July 10, finding that nothing more could be done for the rest of the foreigners in Petrograd.'"

DOUGHBOYS ABSENT IN PARIS WITHOUT LEAVE
PROVOST MARSHAL ESTIMATES 1000, WITH HUNDREDS MORE SCATTERED.
By Henry Wales.
(BY CABLE-REUTERS DISPATCH.)
PARIS, Aug. 8.—More than a thousand American doughboys still are absent without leave in Paris and several hundred more are scattered in France between Paris and Nancy behind the old front, an attack of the provost marshal's office today said.

PORTLAND MAN GAINS 32 POUNDS
"I Feel Better Than I Have in Fifteen Years."
Jack Hogan Gives the Credit to Tanlac.
"It Will Certainly Give Results," He Says.
"Honestly, this Tanlac has not only made me feel better than I have in fifteen years but has also put me in the way of gaining thirty-two pounds in weight. Jack Hogan of 420 East Second street, North Portland, Ore., recently Mr. Hogan is employed by the Columbia River Shipbuilding Company.
In 1918, while I was in the United States navy, I had an attack of yellow fever in Havana, Cuba, and was so low it wasn't certain I would pull through," continued Mr. Hogan. "I was laid up for over three months and for more than a year afterwards I was in a very weak and run down condition. I never enjoyed my meals and was bothered a good deal with a dizziness feeling and it just seemed I couldn't get my old-time strength back. Then, in 1917, I was operated on for appendicitis and that pulled me down. I lost my appetite almost entirely and what little I did eat seemed to ferment on my stomach and often after eating I belched up sour, undigested food. Eighteen months ago I started doing night work as a shipyard here and I couldn't get used to sleeping in the daytime and wasn't able to sleep over four or five hours out of the whole twenty-four and I kept on having trouble with my stomach. I finally got in such bad shape I could hardly climb the hill to catch a street car for home when I quit work and when I did get home I felt all fagged out. I was compelled all the time and suffered a lot with headaches and fell off in weight from 135 pounds down to 123 pounds, and nothing I took for my trouble seemed to help me a bit. I had read about Tanlac and one of the men in the yard told me that he had done him more good than anything else he ever took for his stomach trouble, so I bought a bottle of Tanlac and started taking it from the very start. I kept taking the medicine and picked up right along till now I have an enormous appetite, feel hungry all the time and nothing I eat gives me a bit of trouble. I still have a stomach. I can sleep now and when I get up I don't have that tired, dragsy feeling I used to and have been relieved of constipation entirely and never have any more load. I don't have not only got back the thirteen pounds in weight I lost but have also taken on nineteen pounds besides. I have told lots of the boys at the shipyard about Tanlac and what it did for me, and my aunt, who suffered from indigestion and stomach trouble, has also taken the medicine and thinks there's nothing else like Tanlac because it did her so much good. Tanlac will certainly give results and I am more than glad to recommend it to anybody."

THE MONROE DOCTRINE.
The Monroe Doctrine was the corollary of Washington's injunction against permanent alliances," he continued. "It reiterates and reaffirms the policy of the United States to keep Europe out of the affairs of the Americas. It is as important to keep the United States out of European affairs as to keep Europe out of the Americas. It was purely an American doctrine. It was an American policy, wisely designed for our defense. 'Why, in the name of peace, should we extinguish it? Why, in the name of peace, should we be called upon to leave the interpretation of the Monroe Doctrine to other nations? It is an American policy. It is our principle. It is our well and I for one can never consent to destroy it by a clause in a treaty and hand over its body for dissection to the nations of Europe.'"

It was an American policy, wisely designed for our defense. 'Why, in the name of peace, should we extinguish it? Why, in the name of peace, should we be called upon to leave the interpretation of the Monroe Doctrine to other nations? It is an American policy. It is our principle. It is our well and I for one can never consent to destroy it by a clause in a treaty and hand over its body for dissection to the nations of Europe.'"

THE ANNUAL SUMMER SALE OF FURS
H. Liebes & Co. at "The Unique" 725 South Broadway

TAKE HAIR OUT NOT OFF THE SKIN
Hair is bound to grow out sooner or later, when merely removed from the surface of the skin. The only way to remove hair is to remove the hair root. The original sanitary liquid, does this by absorption.
Only genuine DeMiracle has a money-back guarantee in each package. At toilet counters in 60c, 81 and 85 sizes, as by mail from us in plain wrapper on receipt of price.
FREE book mailed in plain sealed envelope on request. DeMiracle, 129th St. and Park Ave., New York.

PORTLAND MAN GAINS 32 POUNDS
"I Feel Better Than I Have in Fifteen Years."
Jack Hogan Gives the Credit to Tanlac.
"It Will Certainly Give Results," He Says.
"Honestly, this Tanlac has not only made me feel better than I have in fifteen years but has also put me in the way of gaining thirty-two pounds in weight. Jack Hogan of 420 East Second street, North Portland, Ore., recently Mr. Hogan is employed by the Columbia River Shipbuilding Company.
In 1918, while I was in the United States navy, I had an attack of yellow fever in Havana, Cuba, and was so low it wasn't certain I would pull through," continued Mr. Hogan. "I was laid up for over three months and for more than a year afterwards I was in a very weak and run down condition. I never enjoyed my meals and was bothered a good deal with a dizziness feeling and it just seemed I couldn't get my old-time strength back. Then, in 1917, I was operated on for appendicitis and that pulled me down. I lost my appetite almost entirely and what little I did eat seemed to ferment on my stomach and often after eating I belched up sour, undigested food. Eighteen months ago I started doing night work as a shipyard here and I couldn't get used to sleeping in the daytime and wasn't able to sleep over four or five hours out of the whole twenty-four and I kept on having trouble with my stomach. I finally got in such bad shape I could hardly climb the hill to catch a street car for home when I quit work and when I did get home I felt all fagged out. I was compelled all the time and suffered a lot with headaches and fell off in weight from 135 pounds down to 123 pounds, and nothing I took for my trouble seemed to help me a bit. I had read about Tanlac and one of the men in the yard told me that he had done him more good than anything else he ever took for his stomach trouble, so I bought a bottle of Tanlac and started taking it from the very start. I kept taking the medicine and picked up right along till now I have an enormous appetite, feel hungry all the time and nothing I eat gives me a bit of trouble. I still have a stomach. I can sleep now and when I get up I don't have that tired, dragsy feeling I used to and have been relieved of constipation entirely and never have any more load. I don't have not only got back the thirteen pounds in weight I lost but have also taken on nineteen pounds besides. I have told lots of the boys at the shipyard about Tanlac and what it did for me, and my aunt, who suffered from indigestion and stomach trouble, has also taken the medicine and thinks there's nothing else like Tanlac because it did her so much good. Tanlac will certainly give results and I am more than glad to recommend it to anybody."

THE MONROE DOCTRINE.
The Monroe Doctrine was the corollary of Washington's injunction against permanent alliances," he continued. "It reiterates and reaffirms the policy of the United States to keep Europe out of the affairs of the Americas. It is as important to keep the United States out of European affairs as to keep Europe out of the Americas. It was purely an American doctrine. It was an American policy, wisely designed for our defense. 'Why, in the name of peace, should we extinguish it? Why, in the name of peace, should we be called upon to leave the interpretation of the Monroe Doctrine to other nations? It is an American policy. It is our principle. It is our well and I for one can never consent to destroy it by a clause in a treaty and hand over its body for dissection to the nations of Europe.'"

WHAT'S DOING TODAY.

Vanda of Pacific Fleet open for inspection at the Hotel from 2 to 5 p. m.

United States War Veterans make annual convention at the Hotel from 2 to 5 p. m.

University of the Pacific at the Hotel from 2 to 5 p. m.

University of the Pacific at the Hotel from 2 to 5 p. m.

AMUSEMENTS.

Matinee—Rock company in "The Grange." (Theater.)

Evening—Rock company in "The Grange." (Theater.)

Evening—Rock company in "The Grange." (Theater.)

Evening—Rock company in "The Grange." (Theater.)

Two Picnics Saturday.

New Jersey and Virginia State societies will hold separate picnics Saturday in Sycamore Grove from 2 p. m. to 5, with basket suppers at 5 o'clock.

To Get Certificates.

Members of Bartlett Logan Camp, Woman's Relief Corps, are asked to call at Patriotic Hall, 1818 South Figueroa street, at 10 a. m., today, to receive certificates for transportation to the national convention.

Will Show Control.

San Fernando farm bureau center has arranged for field demonstration for the control of citrus scale bark, a disease which is causing considerable injury all over Southern California. The demonstration will take place at 10 a. m., Friday, at the place of F. P. Waite, Fifth and Palmdale streets, San Fernando. The meeting is open to the public. Farm Adviser Hodgson announces.

Commercial Board Luncheon.

At the luncheon of the Commercial Board of Los Angeles at the Hotel Clark today noon the speakers will be Samuel C. Graham, who will talk on "Economic and Social Conditions," and William M. Garland, whose topic will be "Present and Future of Los Angeles." Entertainment will be furnished by "Red" Johnston, violinist. J. S. Barry will be chairman.

SIX ARE HURT WHEN CAR'S BRAKES FAIL.

ONLY SLIGHT INJURIES ARE RECEIVED IN COLLISION OF TROLLEY COACHES.

Six persons were slightly injured and two street cars were wrecked late yesterday afternoon at Arcadia and North Main streets when the cars collided, as the result of failure of brakes. The injured were taken to the Receiving Hospital but were all allowed to go to their homes after having received treatment for bruises and slight lacerations.

Those Taken to the Hospital.

Mrs. Victoria Ayres and Mrs. Ramona Gohara, both of 122 Baughman street, Hyman Pomeroy of 2730 Brooklyn avenue, Conductor Louis P. Johnson of Inglewood, Mrs. Mary Bell of 1115 Winter street and Mrs. Sarah Brill of 2516 Boulder street. According to the police who investigated, the brakes on a Garman street car failed and it rammed a Brooklyn Heights car. The accident, according to the police, was unavoidable.

BURNED BY GASOLINE.

Woman Gravely Hurt When Fluid Cleaning Agent Explodes.

Mrs. Jeannette Giff, 38 years of age, 1242 West Fifty-eighth street, was seriously injured late yesterday afternoon when her clothing caught fire from exploding gasoline. The woman, according to the police, was cleaning some clothing when the gasoline she was using burst into flames, which spread to her light house dress.

MUST NOT DRINK OR SHOOT IN FIVE YEARS.

Augustine Pena must not drink anything intoxicating or use a gun for five years. If he does, his probation will be wiped out and he will be committed for shooting at Policeman A. S. Kuhn. Judge Willis yesterday informed Pena that because this is a closed season for drinking, it is not an open season for shooting policemen. He put him on probation, after Pena pleaded guilty to assault with a deadly weapon.

THE YOUNG LADY ACROSS THE WAY

The young lady across the way says she rather despises the Senator's attitude and it ought to come out with the treaty-making power before going any farther.

URGED GROCERS TO LIFT PRICES.

Combine's Manager Admits He Advised Raises.

Alleged Discrimination by Jobbers Outlined.

Federal Board Continues its Inquiry Into Charges.

Details of the organization, plans and expectations of the Los Angeles Grocery Company were explained yesterday by Flavel Shurtliff, general manager of the company, during his cross-examination by Irving Walker, one of the attorneys representing the respondents in the Federal Trade Commission hearing.

Against the cane sugar refiners, wholesale grocers and brokers of Los Angeles. The hearing started Monday morning in the Federal Building. No other witness beside Mr. Shurtliff has been called.

Hundreds of copies of "88 Progress," the official paper of the Los Angeles Grocery Company, are being used by the defense in the action, and Mr. Walker read extracts from many of the articles and asked Mr. Shurtliff to explain them.

The witness testified that the company was working along lines of explaining to the retail grocers what methods other grocers had used to make their business a success, and he made reference to one article published in "88 Progress" in which the grocers were urged, several months ago, not to sell milk at 10 cents a can. Selling milk at that price was spoken of as making it harder to overcome conditions that are already unbearable. Mr. Shurtliff said he had meant that grocers should not sell any product for less money than they could buy it, and said they were selling a certain canned milk against another which could not be bought at wholesale for that price.

WHY DISCRIMINATE? A baking powder was another article referred to. Witness said grocers used it as a leader and were trying to discourage them from selling it at a lower price than it could be bought for. Mr. Walker wanted to know why the company urged the grocers to buy one particular class of goods against another. He made mention of an article published in the "88 Progress" in which the grocers were asked to push one chocolate in preference to another. The reason, witness said, was that the former was cheaper. It was brought out that the product was bought direct from the maker and was through a jobber.

Considerable stress was laid on the financial statement of the Los Angeles Grocery Company, as published in the paper. Mr. Walker read it several times. The goods are sold for cash, and all bills are due Monday following the weekly purchases, and a delinquency charge of 1-4 of 1 percent is made, with a minimum of \$1, when bills are not paid when due. The attorney wanted to know where this money collected as a delinquency charge went, and the witness said it was carried as part of the profits of the company.

Mr. Shurtliff testified that a corps of salesmen was maintained at the company's salesrooms, and that there are two specialty salesmen on the outside. He said one visits the patrons of the company who are not buying as much as is expected of them, in an effort to boost the business of the company.

FAR-FETCHED.

Asked if he recalled that the plans of the Los Angeles Grocery Company were carried out the "old-line jobbers" would be forced out of business, Mr. Shurtliff said he had no such hopes. Pressed for a further answer, he admitted that this result was within the realm of possibility, but considered the suggestion far-fetched.

He said there are 275 stockholders where the business is concerned with the company. All stockholders must be members of the Southern California Retail Grocers' Association. There are 700 members of this association, he stated, but all of them are not stockholders or customers of the company.

In the forenoon Mr. Shurtliff outlined a number of cases of alleged discrimination by jobbers and manufacturers against the Los Angeles Grocery Company in refusing to recognize the concern as a wholesaler. "Most of them will sell us, but will invariably send us a bill through some jobber, oftentimes with an equalization charge," he said.

YEAR'S PROBATION.

Man Who Hit Japanese Must Also Read Auto Law Often.

As a punishment for running into Masuke Mineoka, and failing to stop his automobile, James W. Case, placed on probation for one year, was told by Judge Willis yesterday to read the automobile laws twice a month during that time. "You must follow the law strictly," the court told him, and Case replied: "Yes, sir."

RECORD RENDEZVOUS OF BOMB-PLOTTERS FOUND.

McGwire's Movements After Church Fire Filled and New Suspects Named—Expect Arrests.

McGwire's movements after the fire at the Trinity Hotel, which filled the church with smoke and flames, were followed by a series of events that led to the discovery of a record rendezvous of bomb-plotters. The fire, which broke out at 10:30 p.m., was caused by a gas leak in the kitchen. McGwire, who was in the hotel at the time, was seen leaving the building and was followed by a group of men who were suspected of being involved in the plot. The fire was extinguished by the fire department, but the damage to the building was extensive. The discovery of the rendezvous was made by the police, who were alerted by a tip from a confidential source. The plot was believed to be part of a larger scheme to炸毁 the city's government buildings.

LAWLER AMAZED BY BOMB PLOT.

"Would not Have Believed it," Says the Victim.

First Public Statement from Him in the Hospital.

Hopes to be Out September 1; Not Disfigured.

In his first public comment upon the bomb plot which nearly cost him his life, Oscar Lawler at the Sisters Hospital yesterday declared himself absolutely amazed by the revelations which have come as the sequel to the sensational suicide of Charles H. McGwire. Mr. Lawler's bitter enemy.

Up to the time that McGwire leaped out of the eleventh story of the Hall of Records last Wednesday night, Mr. Lawler said he was reluctant to believe the destruction of his home the result of a personal grudge on the part of anyone. He admitted that he had for a time thought the explosion might have proceeded from faulty gas connections, due to some late plumbing work done. The discovery of the remains of the bomb which the suicide of McGwire convinced him, against his will, that he had enemies so implacable they would stop at nothing.

Mr. Lawler said he had endeavored to piece together the plot which began with the destruction of the Pico-Tejeras Congregational Church and culminated with the explosion at his own home, but declared it had seemed incredible to him until the evidence became too overwhelming for doubt to longer exist.

Mr. Lawler said he is inclined to believe Mrs. Lawler's story that she had only a vague idea of what was going on, basing his judgment not so much on her actual and admitted evidence, which he is not yet entirely familiar, as upon his knowledge of her temperament, gained during the battle over the Kaftiz estate in which Mr. Lawler opposed her claims.

While considerably improved, Mr. Lawler is not yet out of danger, according to Dr. Thomas C. Jones, who is attending him at the Sisters Hospital. He has had several restless nights lately, partly due to his anxiety over the interests of his clients in pending cases.

The physicians believe, however, that, under favorable circumstances, Mr. Lawler's improvement should be rapid from now on. His principal danger is from curtailed sleep, due to the closing of half of the pores of his body by burns.

Contrary to the general fear of his friends, Mr. Lawler will not be seriously disfigured. The scars of the burns will show but little on his face, the doctors say.

If all goes well it is the present plan for Mr. and Mrs. Lawler to leave the hospital about September 1. They will leave town at once and go to some secluded place for rest and recuperation.

WOMAN IS HELD UP.

Police Auto Bandit Takes Ring and Wrist Watch.

A diamond ring valued at \$125 and a platinum wrist watch were stolen last night by a bandit who, according to Miss Jennie Merrett of 121 East Fifty-fifth street, held her up at Sixty-fifth street and Moneta avenue.

Miss Merrett reported to Detectives Little and Moran of the University division that the bandit was sitting in a motor car and when she passed him, he inquired if she wanted a ride. When told to mind his own business, the man leaped from the machine and demanded that she hand over her ring and watch, she said. Miss Merrett stated the robber wore a soldier's uniform, except for a civilian coat.

After receiving the jewelry and wishing Miss Merrett a pleasant evening, the highwayman ran to his car and disappeared north on Moneta avenue, she related.

BUREAU CLOSES.

The information bureau for officers of the fleet, which has been maintained at the Alexandria during the days of the official reception programme and under the direction of Mrs. Martha McCan closed last evening with an impromptu programme of music and dancing.

COOKS HAND TO SHIELD PUBLIC.

Policeman Painfully Burned when He Threw Live Wire from Sidewalk.

Setting a live electric light wire with his bare hands when it fell on the sidewalk at Second street and Broadway late yesterday afternoon, Patrolman Mike Greely was painfully burned on the right hand and arm. The patrolman, according to persons who were passing at the time, rushed to the wire as soon as it fell to the sidewalk and seizing it, he hurled the sputtering end into the street, away from the passing pedestrians.

Patrolman Greely was treated at the Receiving Hospital before he was removed to his home.

Chief Tells How Los Angeles May Win Big Naval Plum.

Secretary Daniels Speaking at the City Club Luncheon Yesterday. Left to right, Congressman H. Z. Osborne, Albert Lee Stephens, A. G. Bartlett (president of the City Club), Mayor Snyder, Secretary Daniels and Commander P. W. Foote, his aide.

CHANCES FOR SUB BASE BRIGHT, SAYS DANIELS.

Government to Spend Three Millions Here if Community Does Share, Secretary Tells City Club.

Los Angeles stands an excellent chance of being selected as the place for a permanent Pacific Coast submarine base, providing the city will put the proposed site at the harbor in such shape as to be acceptable to the government. The city may be asked to spend at least \$500,000 to do this, but in return the government is prepared to spend between \$3,000,000 and \$3,500,000.

This virtual assurance was given yesterday by Secretary of the Navy Daniels in an address before the City Club, where he appeared as the guest of honor at a luncheon which followed his visit to the harbor on a tour of inspection and to learn first hand, as he said, "of the progressive things that the people of Los Angeles had done in the development of a great harbor."

"We went to your harbor today, not on a social visit, but on a trip of investigation, and what we saw there was an object of admiration for myself and the naval officers with me. The harbor and your water system are as great as any American city. I saw a shipyard today that didn't exist a year ago, and yet it broke world records in shipbuilding."

"As you know, the Pacific Fleet is not here on a visit, but it is here to stay. But to provide for it suitably we will have to have naval bases. We are now, as we move along, studying the needs of the Coast, and what we learn of its harbors will decide where these naval bases are going."

DANIELS EXTOLLS LEAGUE.

In Farewell Speech, Navy's Chief Urges Hearers to Work for Peace Pact.

A promise that some day we will see both the Atlantic and Pacific fleets riding at anchor together in Los Angeles Harbor; the prediction that this port will one day be the harbor for the greatest armadas, both naval and mercantile, and a call upon his hearers to urge ratification of the covenant of the League of Nations, were among the utterances of Secretary of the Navy Daniels in his last public address in Los Angeles, made before a crowd of more than 5000 persons in Pershing Square yesterday afternoon. A few hours before his departure for the harbor to sail for Honolulu.

Speaking of the advent of the Pacific Fleet in these waters, the Secretary laid stress on the fact that it is not here on a visit, but it is here to stay. The coming of this mighty flotilla to these waters, he declared, has a much deeper significance than their armored might and the frowning big guns. He said the Atlantic and Pacific coasts of the United States are united as never before, in the bonds of strength.

Referring to the war just closed, the Secretary declared that through all the period of sacrifice, blood and battle, the nation knew it would win the victory which we celebrate by the coming of the fleet to the Pacific. "And some day you will have both the Atlantic and Pacific fleets at your door," said Mr. Daniels, referring to the great advantage in naval concentration given this country by the Panama Canal.

DANIELS WILL DEPART TODAY.

Official Party Already on Board Dreadnaught for Trip to Honolulu.

Secretary Daniels and his official party went aboard the battleship New York at 7 o'clock last evening, and the vessel is scheduled to sail early this morning for Honolulu, where the Secretary's party will attend the official opening of the great naval base at Pearl Harbor.

In the party are Mrs. Daniels and their two sons, Rear Admirals McKean, McCormick and Parks and Commanders Foote and Hilson, aides. The New York will be escorted by the destroyers Chauncey, Dent, Waters and Philip.

The New Mexico and New York fired a nineteen-gun salute as the Secretary went aboard and the flagship band played the national air as the five vessels moved outside the breakwater.

The battleship and escort will return to San Francisco shortly after September 1 and in time, it is hoped, to be present at the review of the fleet in the Bay City harbor by the President.

SECRETARY AND NAVY OFFICIALS SEE SITE.

INSPECT LAND FOR SUB BASE; MARY PICKFORD REWARDS CREW OF "TEXAS."

In the official party which accompanied Secretary Daniels on his inspection tour of Los Angeles Harbor yesterday were Rear Admirals L. J. Jans, commandant of the Twelfth Naval District; J. S. McKean, assistant chief of naval operations; C. W. Parks, chief of the bureau of yards and docks; Commander J. C. Hilton, of the navy supply department; Commander P. W. Foote, aide to Secretary Daniels; Mayor P. F. Snyder; and Mrs. L. M. Morrell, president of the Chamber of Commerce; Congressman Henry Z. Osborne; John B. Elliott, collector of customs; Irving Hellmuth and Christopher Gordon, president of the Board of Harbor Commissioners.

The distinguished party first visited the submarine base, then the mainland adjoining the outer harbor at the breakwater. Here, Secretary Daniels discussed with the naval authorities the possibilities of procuring forty-seven acres of land adjacent to the government property. The crew of the big ship with a silver cup, their reward for selling the largest number of Liberty Bonds.

The crew of the Texas sold \$120,000 worth of bonds. The flag of the George Washington, the vessel which carried President Wilson to the Peace Conference, was also presented to the Texas crew as a personal gift.

MANY GET CITY BEER PERMITS.

Seventy-one are Issued by the License Bureau.

Prosecutor Widney Voices a Word of Warning.

Nothing Harder than War Brew will be Permitted.

Seventy-one licenses were issued by the City License Bureau yesterday under the Gander ordinance, permitting the sale by wholesalers, restaurants, cafes and clubs of 2.75 per cent. beer, subject to any restrictions enforced by the Federal authorities. Each license was stamped to this effect, as suggested in the opinion sent to the City Clerk Monday by City Attorney Burnell.

City Prosecutor Widney said yesterday: "The issuing of Gander ordinance licenses means that the situation is restored to what it was before July 1, so far as the city government is concerned. The Federal government, in fact, says that, while war-time prohibition is still legally in effect, the bars are let down only in the case of beer containing 2.75 per cent. alcohol, and only until the question is settled by the government and the courts as to whether or not it is barred under war-time prohibition."

"The City Prosecutor's office will continue to prosecute any persons who are not holders of Gander ordinance licenses who are found to be selling 2.75 per cent. beer. During the confusion that ensued over the question, a number of local unlicensed Los Angeles dealers began selling 2.75 per cent. beer, believing that the courts had declared it a soft drink. Such is not the case. Saloons are, of course, still barred, as they have been since April 1, 1918, when the Gander ordinance went into effect."

Although there was a rush to secure licenses yesterday, and the city treasury received \$6350 in monthly license fees, not all holders of Gander ordinance permits applied for licenses. Of the seventy-one wholesalers entitled to purchase licenses twenty applied and received licenses; of 107 restaurants, cafes, etc., forty-six applied; of the thirteen social clubs in the city, the Eagles, the T.M.A. and Rex clubs asked for licenses, and one winery was given a license.

Unofficially the word has been passed along to the license holders that the Federal government will probably permit the selling of 2.75 per cent. beer until the question is settled, but there is no doubt that sellers of wine and harder liquors will be quickly prosecuted by the Federal authorities.

The Eighteenth Constitutional Amendment will go into effect January 1, unless revoked by the necessary number of States by constitutional amendment before that time, which is believed unlikely. Congress is now drawing up an act which will define exactly what is meant by the term prohibition in the Eighteenth Amendment, so that if it goes into effect there will be no repetition of the confusion resulting from the attempts to enforce war-time prohibition.

AUSTRALIAN'S HERE ON A TRADE MISSION.

Representing F. H. Faulding and Company out of the oldest drug and chemical houses in Australia, A. F. Scammell, of Sydney is in Southern California on a tour of inspection and until Friday may be reached through the foreign trade department of the Chamber of Commerce.

Mr. Scammell is particularly interested in the crude chemical ores of this section and expects to interest a number of local dealers in Australian trade possibilities while here.

THOMAS A. EDISON SPENT THREE MILLION DOLLARS FOR YOU.

To develop a phonograph which would give you, in your home, the literal RE-CREATION of music, Thomas A. Edison spent three million dollars in research. The result was the official laboratory model of

THE NEW EDISON

"The Phonograph With a Soul"

This wonderful instrument has been compared more than two thousand times in public with more than forty different great artists—singers and instrumentalists—and in each instance its RE-Creation of the singer's voice, or instrumentalist's performance, could not be told from the original.

May we have the pleasure of demonstrating to you that music's RE-Creation is a reality and not merely a fanciful phrase?

If inconvenient to call, write for complete catalog and free copy of the Musical Magazine, "Along Broadway."

Broadway at Sixth

Mrs L.A. Housewife Says—

—“I KNEW I COULD SAVE—If I only knew how to buy the PROPER CUTS OF MEAT—and where to be sure I was getting them.

—“I FOUND OUT by shopping at YOUNG'S what a difference there is in meats, for instance.”

COW BEEF—when frying, generally simmers or stews, due to the large percentage of water in the fat, and from cows which have been hastily fattened after their use as milch cows is over.

STEER BEEF—from YOUNG'S MARKET—when fried always has a crispy, deep brown, juicy tenderness that needs only to be tasted to convince you of its delectability.

Quite a Difference, Isn't There?—

—AND THE SAVING—due to the fact that the BEST is always the CHEAPEST, because there is NO WASTE.

BEER

10,000 Breweries in Los Angeles

It is a fact, there are 10,000 families in Los Angeles having their own beer and are all elated over their success, and say when it is made with Tru-Malt Syrup, it beats any beer they ever bought.

Our Package containing

TRU-MALT SYRUP

Made for us by the Rainier Brewery, Seattle, Wash.: 9 ounces Hope, package of Gelatine, retails for \$1.50 and with the addition of 2 pounds of sugar, 1½ cakes fresh Fleischman's Yeast will make 5 gallons of the best beer you ever drank, bar none.

We ship anywhere. Recipe free on application.

Remember, TRU-MALT SYRUP IS THE BEST. Special attention given mail orders.

HAND CAPPERS, 25c.

Crown Caps, 60c lb., about 12 doz. to the lb.

EVIDENCE OF PROFITEERING

Local Market Survey Reveals Wide Difference in Food Prices.

Profiteering is the topic of the day in kitchen as well as counting room and it is by no means certain the issue is not more important in the first kingdom than it is in the second. The housewife is the real sufferer and during the past months she has taken an involuntary course in domestic economy that has been more practical than those taught in theory at a university, and which lead to a fancy degree.

Given a fixed income, or at best an income which increases only in all proportion to the expense rapidly with which the price of foodstuffs has jumped, her problem has been more difficult than the job laid down by the biblical reporter of making two blades of grass grow where but one had grown before. Every woman who reads this knows better than any other member of her family just what a 40 cent dollar means, and while she may not be altogether certain of the technical meaning of the terms inflation and expansion, she knows what she can do, or rather what she cannot do, with the familiar silver orb.

We have been told repeatedly that the producer was charging too much, that the wholesaler was gouging, and that the trafficker would bear and that the retailer was getting his bit in a final arbitrary fling at the victim of it all, the ultimate consumer; the you, and you, and you, who take your market basket every day and fare forth to see what still be procured for your depreciated currency. Production, we are told, is greater than ever. There is no real shortage of foodstuffs, and yet there have been no crop failures, and yet the price of necessary commodities has gone up, and up and up until the woman who is called upon to perform a miracle with the pay envelope is all but frantic.

THE RETAILER.
The housewife comes into direct and intimate contact with the retailer. He is the one to whom she looks for fair play. She knows little about the intermediate dealers between the corner grocer and the rancher or truck gardener. The retailer assures her that the fault is entirely with the weather fellow, that he is not making any more money than he made when food was a necessity instead of a luxury. Today let us discuss together this phase of the situation, which is especially apropos, since the President recently suggested that one remedy for the present condition would be to require all goods to be plainly marked with the price at which they came into the hands of the dealer, so that the customer could see at a glance just how big a profit she was paying.

MEAT IS CHEAPER.
Nearly every home buyer will agree probably that the meat situation is considerably better than it was three, four or six months ago. The retail butchers have finally seen the light, and investigation by this department leads to the conclusion that the wide gulf which for so long was fixed between the retailer and the grower has narrowed down to what may almost be called a legitimate profit.

When beef, pork, lamb, veal and mutton on the hoof began to drop last spring it dropped fast, but for weeks there was no indication that the retailers had heard the news, for prices were maintained at war levels. When the matter was brought home to them they said the public refused to buy the cheaper cuts, and they were compelled to charge more for the fine portions to offset losses on the other.

Since then beef on the hoof has declined about 14 per hundredweight, but allowing a reduced margin of profitability in the claim mentioned above it is true that the price of most cuts at retail have also declined from 5 to 7 cents per pound. Yesterday excellent rib steaks were on sale for 25 cents the pound; bacon at 45 cents, which is only 11 cents per pound more than it sold for at the city sale a week ago. This seems like a big difference, but it should be said, in fairness, that the quality of the 45 cent bacon is better than that of the government offering in that it is thinner, leaner, and less salt. A good veal roast could be had for 25 cents; lamb roast for 25 cents; and chops for 45 cents. These prices are high, of course, and show a big profit absorbed somewhere between the range and the table, but they at least have the merit of being upon a declining scale, and it is doubtful if the reputable members of the Butchers' Retailers' Association could be successfully accused of wilful profiteering.

VEGETABLES TOO HIGH.
One of the greatest hardships the housewife has had to contend with this summer in connection with high prices has been the cost of home grown vegetables and fruit which she has been accustomed to obtaining very cheap either for immediate use or for preserving. By home grown is meant foodstuffs raised within trucking distance of Los Angeles, and it is in this production which is largely controlled by the Japanese that the most serious profiteering will probably be uncovered when the investigating committees dig deep enough.

There are plenty of stories current of acres of first-class food being deliberately destroyed or permitted to rot for price maintaining purposes while the handling of the berry crop has been in many instances, little short of criminal. In fact, it is not too much to say that the housewife who is called upon to prepare some new dish? Write and see if we can't find the recipe for you. Have you learned something new and interesting about housekeeping? Let The Times print it so that other housekeepers can be benefited. Address all communications to Editor Times Housekeeping Department.

the face of abundant crops, and of a buying public which would have made no complaint of the increased cost of handling and packing which all recognize, this fruit has been sacrificed or sent to canneries to be preserved and stored to be brought out next winter and offered to the trade at robber prices. There has been some real profiteering here.

TRADE RESTRAINED.

To make a veracious narrative it is also necessary to relate that in many instances, not all, but many, the retailers of this class of foodstuffs have not been on the side of the public. On the contrary they have taken the produce after paying the unconscionable and unwarranted advances to the producer and the jobber, increasing ranging from 25 to 30 per cent, and then tacked on another extra and horizontal profit of their own. There is some consolation in the fact that many of the retail dealers who have done this are Japs and probably a part of the combine, but there are enough of the others to keep the price level at the top notch.

Here are a few significant figures compiled after a visit to the terminal market and afterwards checked up at half a dozen establishments in the business district. The prices are averaged, but based upon closely and accurately gathered figures. The terminal market list comes first; then the retail list. Anyone could have guessed from the first named price, but, of course, would be compelled to perfect his own delivery:

Commodity	Terminal	Retail
Cucumbers	1 cent	2 cents
Onions	1 cent	2 cents
Peas	1 cent	2 cents
Beans	1 cent	2 cents
Apples	1 cent	2 cents
Pears	1 cent	2 cents
Oranges	1 cent	2 cents
Lemons	1 cent	2 cents
Strawberries	1 cent	2 cents
Raspberries	1 cent	2 cents
Blackberries	1 cent	2 cents
Cherries	1 cent	2 cents
Peaches	1 cent	2 cents

It is possible that in a few instances where there appears a wide variance the question of quality may enter, but for the most part the article exposed for sale on the retail stalls was more or less fresh from the terminal open market. The big wholesale dealers do not quote in small lots, and their prices probably average a little higher than those used, although it must be understood that while they maintain receiving and shipping stations, with truck and delivery system and the necessary overhead they do not sell to the retail buyer. Their prices are strictly wholesale to the trade. The so-called open market runs through the core of the terminal plant and that is where the producers sell their produce at wholesale, or at retail, if the prices offered by the big buyers are not satisfactory.

TOO MUCH PROFIT.
It will be noted that in scarcely an instance is the final profit, that is the profit realized by the retailer, less than 25 per cent, while in some cases it amounts to 30 per cent. This fact, taken on to the big combine, presumably realized by both the grower and the wholesaler gives us an insight at least into one reason for the high cost of living when it is brought home to our own back door. Regularly established and reliable dealers say that it is not fair to quote the prices made on this curb market and which they claim fluctuate with the daily ebb and flow of trade. Their orders, they say, are stabilized, and fluctuate with the law of supply as established by the wholesalers with whom they deal, and the public, and that further they charge only a fixed sum over cost to cover overhead, spoilage, and net profit.

It is not the purpose to charge this class of dealers with profiteering, but the index to indicate a mighty loose condition of market, and a wide open door for the grower and the dealer whose conscience will permit him to use.

SWEET PICKLES.

A Pasadena subscriber writes to ask that we print a good recipe for making sweet pickles. The following one for sweet pickled peaches is equally as good for pears, apples, crab apples and plums.

Eight pounds of fruit, four pounds of sugar, two ounces of cloves, one quart of vinegar and two ounces of salt.

Boil the sugar and vinegar with the cinnamon for five minutes, then put in the peaches, a few at a time, with one or two cloves in each peach. When they are done enough to prick easily with a fork take them out of the kettle and put in others to cook until they have all been cooked. Boil the syrup down to one-half the original quantity and pour it over the peaches. Seal in jars.

For green cucumbers try sweet cucumber pickles:

Make a brine salty enough to float a fresh egg. Soak the cucumbers in brine for a day and night; rinse in fresh water, leaving them in the water a few minutes; wipe dry and put in kettle with vinegar, adding one cup of sugar to each quart of vinegar; also, cloves, pepper, allspice and mace; heat slowly to boiling and pack at once. Seal tightly.

TO CLEAN THE SOLES OF SHOES.

Get your drugist to make a solution of orange shellac and alcohol, and with a small brush apply this carefully to the heels and soles of your white shoes whenever the latter are polished. It leaves a satiny finish, and a 20-cent bottle has lasted considerably over a year.

A WOMAN'S WORK.

When breakfast things are cleared away
The same old problem's rising.

For she again sits down to think
Of something appetizing.
The dinner she must soon prepare,
Or give the cook directions.
And great is the relief she feels
When she has made selections.

When dinner things are cleared away

The problem that is upper
Is just the same with one
word changed—
“What can I get for supper?”

She wants to give them something new,
And long is meditation,
Till choice is made, and then begins
The work of preparation.

When supper things are cleared away
Again her mind is worried.

For then she thinks of breakfast time,
When meals are often hurried.

She ponders o'er it long until
The question is decided.
The hustles round till she makes sure
That everything's provided.

That "woman's work is never done"

Has often been disputed,
But that she's worried is a fact.
That cannot be refuted.

The worry over what to eat
Is greatest of these questions,
And glad she'd be if some one else
Would make the meal suggestions.

TOOTH-SOME FISH IN GELATINE PACKING.

Tuna, or any other canned fish is delicious prepared with a cucumber jelly.

To prepare the jelly pare two cucumbers, slice and place in a saucepan. Add a slice of onion, a teaspoon of celery seed, a slice of minced green pepper, one-half teaspoon of powdered sweet herbs and cold water to cover. Season to taste with salt and simmer until the cucumber is very tender. Press through a sieve, add a tablespoon of lemon juice, one-fourth teaspoon of paprika, and for each cupful of vegetable liquid use three-fourths tablespoonful of gelatine softened in three tablespoonful of cold water. When the gelatine is dissolved color with a few drops of green vegetable coloring matter, cool and, with the assistance of the jelly, mold tuna fish in layers with slices of hard-boiled eggs, bits of feathery parsley and sliced stuffed olives. The tuna fish should be previously rinsed in cold water and exposed to the air at least a half hour. Chill on the ice and serve unmolded. All cooked fish is delicious served this way.

Another inviting dish prepared with gelatine is parsley jelly, which can be made for a salad or for garnishing a meat dish of any kind. Clean the parsley and heat it in a double boiler with a little water for half an hour. Strain, and to a pint of the juice add a pound of sugar, the grated rind and the juice of a lemon, and hold over a low fire. Stir in a tablespoonful of granulated gelatine, softened in cold water, and chill. This can be poured into a mold and surrounded with a meat salad, or it can be cooled in a bowl and cut into dice for garnishings. For a salad, chopped nut meats can be added to it, and then cubes of the jelly can be served on lettuce with mayonnaise.

CRAB-APPLE JELLY.

Crab-apple jelly is one of the choicest of jellies. This week crab apples are plentiful and about as cheap as they are likely to be. It's a good time to make jelly and its by-product crab-apple marmalade or preserves. To make the jelly remove stems and wash fruit. Cut out all imperfect parts and the blossom end. Divide into halves and core, but do not pare. Put into the kettle with half as much water by measure as fruit. Simmer until fruit is tender. Turn into jelly bag and drain without squeezing. Allow equal measures of juice and sugar. Jelly should be boiled in small quantities to insure a clear, well-colored jelly. A quart of juice will fill in about twenty minutes steady boiling, stir occasionally, test by dropping from spoon. When done fill jelly glasses, let cool a few minutes and cover with paraffine.

The crab-apple pulp left after the juice is drained out can be made into marmalade, or if the halves hold their shape they may be made into preserves by cooking them in a hot syrup.

CITY WORKERS
GET PAY RAISE.Pasadena Police and Firemen
Among Favored Ones.Citizens of Crown City Ask
for Public Park.Boy Scouts Camp at Catalina
in September.

LOCAL CORRESPONDENCE
PASADENA, Aug. 12.—Members of the Pasadena police and fire departments joined the ranks of the light and water employees among the higher paid employees of the city today, when the City Commission voted them increases in salaries averaging about 20 per cent.

The Commission voted for these increases 1 to 1. Commissioner J. J. Hamilton voted in the negative and Chairman A. L. Hamilton did not vote at all because they desired completion of the city's budget before taking action on higher pay for the two departments.

A petition asking the city of Pasadena to establish a small park in the northwest section of the city at once if the Commissioners feel the municipality cannot afford to establish a large one at this time was presented to the Commission today. The petition was from members of the Northeast Improvement Association and charges that the Commission will be acting with unfair discrimination against the northeast section if an appropriation for a northeast park is omitted this year. The petition was referred to the committee of the whole.

BOY SCOUTS TO ENCAMP.
Tailman H. Traub, scout executive for the Boy Scouts of Pasadena, has gone to Catalina to prepare the newly-acquired summer camp of the Pasadena Scouts for their annual encampment. The Pasadena scout council has purchased the buildings of the Los Angeles scouts at White's Landing. These buildings will be moved to the Pasadena scouts' camp at Holland Landing. The scouts will go into camp in September.

DR. MOORE WELL KNOWN.
Pasadena Methodists are much interested in the announcement that Dr. A. Ray Moore is to become superintendent of the Spanish-American Institute at Gardena. A Methodist denominational institution. Dr. Moore is the former district superintendent of the Pasadena district of the Methodist church, a post he relinquished to devote all

of his time in recent months to the Methodist missionary campaign.

TO CONTEST CASE.
Lionel M. Armstrong, wealthy clubman and society man of Pasadena, arrested by the police recently on a charge of auto speeding, indignantly denies the charge and will have a lawyer on hand to fight the charge when the case is called in Police Court tomorrow. It is understood that the defense will be that the police spotted the wrong car.

TRIAL IN OCTOBER.

Joe Franco, Accused of Shooting Officer, is Arraigned.
Joe Franco, charged with the murder of Samuel Blundell at Huntington Park, who was arraigned in Judge Miller court yesterday, will be tried October 26. The shooting took place on the night of June 21, apparently without motive. Blundell is an officer who had gone to a house on an alarm. It is claimed he drew his badge as he approached, calling out: "I am an officer." Franco is said to have stepped forward with a shotgun. His wife was behind him, acting in a pleading manner. Franco is claimed to have fired and killed Blundell. Attorney R. S. Kahn, representing Franco, states that a purse is being raised among the Italians, to defend Franco. The defense has not been stated.

WORKING CONDITIONS
ATTRACT AMERICANS.

LOCAL CORRESPONDENCE
DINUBA, Aug. 12.—Within the week the first of the several labor camps constructed under direction of the Valley Fruit Growers' Association will be opened at Fowler, according to a statement from the board of directors. In making the announcement the officials declared that through the agency of these camps and the new and liberal scale of wages which has been adopted this year it will be possible for the growers to employ American labor almost wholly and that supplemented by Mexicans and Indians, the force will be of sufficient size. Comparatively few orientals will be needed.

Laborers are coming into this district in preparation for the raisin season this year from Oregon and Washington and even from some Middle Western States, attracted by the conditions for which association officials declare their members are largely responsible.

SANTA ANA LICENSES.
LOCAL CORRESPONDENCE
SANTA ANA, Aug. 12.—Marriage licenses here: Luke Leo House, 26, and Ruth Morgan Akers, 25, both Los Angeles; Elmer J. Irvin, 21, and Ethel Isabelle Morrison, 18, both Los Angeles; Charles Edwin Schofield, 25, West Roxbury, Mass., and Nora May Elizabeth Fullerton, 25, Fort Collins, Colo.

LOW-POWER BEER
AT SANTA BARBARA.ONE DEALER TAKES CHANCES
AND REAPS HARVEST.—
DRUNKS INCREASE.

LOCAL CORRESPONDENCE
SANTA BARBARA, Aug. 12.—Although several liquor dealers had announced that they would begin to sell 2.75 per cent. beer today, only one establishment had the beverage on sale, and today reaped the reward of a big business. This company had a city license still in effect, and is taking chances with the Federal law.

Two cafes and other companies which had announced the sale of beer today found that they were free from city control, and after a conference with the City Attorney and Chief of Police decided to hold their stock.

During the last few days the number of drunks arrested has increased. The drunks they are buying whisky at exorbitant prices from bootleggers. Grocers report that their stocks of beer are running low, and alcohol are almost exhausted.

WILD JOY RIDE.
LOCAL CORRESPONDENCE
VENTURA, Aug. 12.—R. J. Bradley of Los Angeles, a meat dealer, was arrested here, following a wild joy ride in an alleged intoxicated condition Friday night. His car collided near Ventura, with one driven by Ed Lewis of Los Angeles, in which Mr. and Mrs. Lewis were riding. Mrs. Lewis suffered painful, but not serious injuries.

Bradley was charged with a felony charge by Under Sheriff Dick Hayden and was later released on a cash bail of \$500. Both cars were wrecked.

SEARCHING EVIDENCE
IN BRAWLEY CRIME.BRAWLEY, AUG. 12.—Fingerprints on the box from the safe of Bailey's store at the time William Bailey and James McElhenny were murdered on the night of August 4, were not made by Philip Goessel, held as a witness and suspected of being implicated in the double murder.

Officers yesterday compared prints of Goessel's fingerprints with the marks made by the robbers at the time the box was broken open, and found that the prints were not made by the same person. This convinces the officials that Goessel had no part in the crime. He has been held because of the belief that he has knowledge which will be valuable if any clues are found leading to any possible person, as he is known to have been familiar with the men murdered, and most of their visitors.

Officers are inclined to the belief that Asiatics were guilty of the murders. Bailey had associations, friendly and unfriendly, with many Hindus, and was a frugal man. That he made a bitter enemy of some Hindu is thought possible, and it is known that he took sides in one of the Hindu quarrels which stirred the Rockwood section. No clues have developed which implicate any individual Hindu, but officers are engaged in making investigations which are based on the theory of some Asiatic murdering Bailey for revenge, killing McElhenny to hide the crime, and robbing the store to give the affair the appearance of having been committed for robbery.

POMONA BOY COMES
HOME WITH FLEET.

AFTER LONG SERVICE SAILOR
VISITS HOME AND
FRIENDS.

LOCAL CORRESPONDENCE
POMONA, Aug. 12.—There is, without a doubt, no mother in all of the southland to whom the coming of the Pacific Fleet meant more than it did to Mrs. John Chisholm of 320 North Park avenue, Pomona. On the Arkansas, one of the boats of the fleet, was her son Arthur Chisholm, homeward bound after two and a half years' service. During this time he was near death, having been wounded six times in a terrific encounter with a German spy who had killed his ship mate.

Chisholm obtained a few hours' leave Sunday and came home, although he was able to remain here only half an hour he found time to greet quite a number of his friends. He will proceed with the fleet to San Francisco, where he is scheduled to receive his discharge. He is one of four brothers, all of whom went into the service. The other three have already returned, unharmed by the war.

The encounter in which Chisholm was severely wounded, took place on board ship. There was a man whom he and his mates suspected of being a German spy. The man was detected in attempting to board the boat and was attacked by one of the sailors. In a fight which ensued the sailor was killed.

Just as the German spy overpowered the sailor Chisholm came up and the man leaped upon him. For several minutes the battle swung backward and forward when at last the spy was safely locked in iron. Chisholm speaks interestingly of the trip of the fleet through the canal and of the wonderful welcome accorded to them in San Diego and Los Angeles.

POMONA BOY COMES
HOME WITH FLEET.

LOCAL CORRESPONDENCE
POMONA, Aug. 12.—Dr. Alenna Taylor, who left his home in Pomona during the world war as chairman of the surveys for American relief administration, is now back in the United States, having arrived in New York on the steamer Patricia after eight months work in Germany, Austria, Hungary, Rumania and Serbia. He states that there are millions of people in Europe who need American food. Crops throughout the countries mentioned have been greatly curtailed, awaiting the decisions in territorial adjustments as none of the countries want to engage in development projects on land which may not be theirs after the settlements are made.

He also speaks interestingly of the individual countries and says that the situation in Poland is hopeful despite the great scarcity of work animals. In Czechoslovakia American foodstuffs are all that permit the people to exist until their harvest. Chaos reigns in Finland and the east Baltic States.

SPORTS MOTORING FILM AND DRAMA

HOMER BEATS BEES.

There with Mighty Swat in the Fourth—Pitchers Hit Hard.

BY HARRY A. WILLIAMS.

When wearing the honorable scars of battle, and attempting to hide them by keeping the back of his head to the crowd, True, Held was beamed with a glove in the back of his head, but this did not raise a bump, so there was no honorable scar protruding from his cerebellum. However, Red had a cauliflower ear which could not be concealed even in the excesses of his modesty. The ear made one of the finest honorable scars ever seen in these parts. It looked like the wing of an albatross which had been hit with a wooden mallet. Because of the distorted condition of the ear, Red could not get his mask over it, and was compelled to wear the cage at a rakish angle.

WEAR EAR MUFF.

It was plain that Red didn't like the way his ear stuck out and flapped around in the breeze. But the only way he could have concealed it would have been to wear an ear muff, and that wouldn't look well in August. Furthermore, it would have prevented him from listening to the sweet music of foul play.

WEAR EAR MUFF.

Salt Lake started quick. Margaret opened the pastime with a shady single off Kenworthy's shin. Two sacrifices followed in rapid succession, and Krumler fired his first shot, a single to center that counted Mar. Mulligan, Johnson and Fitzpatrick assembled under Crawford's Texas Leaguer and didn't lay a glove on the ball. When Fournier ran throw his glove and hit an object the size of an umpire's head it sure looks funny when not one of three guys can glove a ball that is coming straight down. Basler flew to Fitzpatrick, who with nobody near him, caught the ball.

WEAR EAR MUFF.

Adhering to the rule of not doing any business until two were out, Niefhoff and Fittery each got a single for themselves in the fourth. This was the crisis in which Killefer belted his homer. He drove the ball against a beer sign in left center, and laced himself around the bases in jig time. Niefhoff and Fittery chased themselves in ahead of him.

WEAR EAR MUFF.

A swat to this beer sign is what is technically known as a warm weather home run, but under the circumstances the ball should have counted for only two and three-quarter of a home run, or a little less than a three-bagger.

WEAR EAR MUFF.

A grounder by Krug ran up Niefhoff's leg. The shape of Bert's leg gave the ball a peculiar twisting motion, and it spun on up into the air. He could not find it until it came down again. In view of the shape of the leg, the blow could be scored only as a foul. Niefhoff, however, hit the ball straight to the right fielder, who caught it. Realizing that the

WEAR EAR MUFF.

Matchmaker Hunefeld of the Long Beach Club has completed his card for Friday night and announces the following events: Danay Kramer will meet Sailor Kramer in the main event. These boys need no introduction to fans as they have performed several times at the Vernon Club. This match will be hotly contested and Hunefeld can be congratulated in securing the services of these two clever boxers.

WEAR EAR MUFF.

Sailor Kelly, undefeated champion of the navy, will meet Reliable Old Young and if he can beat Moore then he is entitled to be called the champion of Southern California.

WEAR EAR MUFF.

Another fast and sensational bout will be between Jimmy Brenton and Kid Rubidoux. Rubidoux hails from Netherland's San Berdo Club and is said to be the fastest boxer in that part of the country. Brenton is fast and this will assure the fans a clever exhibition. The rest of the card is as follows: Sam Kuspar vs. Young Andrews, 140 pounds; Bobby Keene vs. Kid Laman, 125 pounds; Mike Solletto vs. Joe Capelli, 118 pounds.

WEAR EAR MUFF.

SEATTLE (Wash.) Aug. 12.—James Brewer, president of the Seattle club of the Pacific Coast Baseball League, announced today he intended to call off a deal by the terms of which Walter Mails, Seattle pitcher, and \$1500 cash went to Sacramento recently for pitcher Harry Gardner. When Gardner was turned over he was ill and has been in no condition to pitch since.

Modern Diana Forsyth, Just Returned with Spoils of the Chase. Gloria Swanson, beautiful Los Angeles girl and screen actress, who is leading woman for Cecil B. DeMille's special production, "The Sign of the Cross," is an enthusiastic huntress and has a full equipment from the B. H. Davis Company.

LONG BEACH CLUB TO GIVE CLASSY BOUTS.

Matchmaker Hunefeld of the Long Beach Club has completed his card for Friday night and announces the following events: Danay Kramer will meet Sailor Kramer in the main event. These boys need no introduction to fans as they have performed several times at the Vernon Club. This match will be hotly contested and Hunefeld can be congratulated in securing the services of these two clever boxers.

SUNDAY'S BRAWL HAS TWO SIDES.

In view of the closeness of the pennant race, President Powers entertains the hope that Fournier's suspension will not be a long one.

SUNDAY'S BRAWL HAS TWO SIDES.

"There are two sides to the case," said Powers. "I am not defending Fournier, but certainly did wrong. But held himself was certainly not in the right, and if the umpire sends in a correct report he will admit having rushed at Fournier. But for this there would have been no fight. When Held rushed, Fournier could not do less than fight back. Where Fournier made his mistake was in throwing the glove. Held did not need to attack Fournier for this. An umpire has authority vested in him with which to adequately deal with a case of this kind. A fine of \$100 imposed on the spot would have hurt Fournier more than any blows which Held could have hoped to land."

SUNDAY'S BRAWL HAS TWO SIDES.

"To my way of thinking, both men were at fault, and it would be unfair to keep the player out of the game for a protracted period while allowing the umpire to continue work."

[BY A. P. NIGHT WIRE.] SAN FRANCISCO, Aug. 12.—A gift of 25,000 shares of stock in the Pacific Improvement Company, valued at \$1,500,000, has been made to the University of California by Edward F. Searles, a Massachusetts capitalist. It was announced at a meeting of the board of regents here today.

WANTS TO CALL OFF DEAL FOR PITCHER.

[BY A. P. NIGHT WIRE.] SEATTLE (Wash.) Aug. 12.—James Brewer, president of the Seattle club of the Pacific Coast Baseball League, announced today he intended to call off a deal by the terms of which Walter Mails, Seattle pitcher, and \$1500 cash went to Sacramento recently for pitcher Harry Gardner. When Gardner was turned over he was ill and has been in no condition to pitch since.

PROFESSIONALS LICKED.

TOLEDO (O.) Aug. 12.—The Rail Lighis, a local semi-professional baseball club, pounded Fuller for six runs, one of which was a four-base hit in the second inning. The gift was given to use as the regents saw fit "in promoting the educational work of the university."

DEL HOWARD TO QUIT OAKLAND.

[BY A. P. NIGHT WIRE.] SAN FRANCISCO, Aug. 12.—Announcement that he will quit the team as soon as he can sell his interests therein.

DEL HOWARD TO QUIT OAKLAND.

But at any rate by the end of the season was made by Del Howard, manager of the Oakland club in the Pacific Coast League, while passing through here on his way to Portland, according to a published statement here today.

DEL HOWARD TO QUIT OAKLAND.

The statement, said to have come directly from Howard, gives large ranch interests at Paso Robles, Cal., as the reason for his quitting.

DEL HOWARD TO QUIT OAKLAND.

"I have been in baseball for twenty-five years, and will go out as soon as the opportunity presents," the statement said.

DEL HOWARD TO QUIT OAKLAND.

Howard was former manager of the San Francisco club and played with the Chicago Nationals and on Western League teams.

DEL HOWARD TO QUIT OAKLAND.

Prior to the war cases of "lacking" were not uncommon among baseball players. Some of them would contrive to remain out of the game on the slightest pretext. These, of course, were the exception, rather than the rule. However, that spirit seems to be entirely gone. There have been many instances this season of players remaining in the game on sheer nerve when they should have been on the bench or in the hospital.

DEL HOWARD TO QUIT OAKLAND.

The story of Killefer remaining in the game in Sacramento with a dislocated shoulder and twisted knee has already been re-acted. Yesterday he was in the line-up, although far from being in shape. When Bert Niefhoff walked on the field yesterday he could not raise his right arm. Some ligaments were torn in it Sunday. The arm gradually became looser, but every movement with it meant a bundle of pain for him. None of the fans realized this, as he played his position perfectly.

DEL HOWARD TO QUIT OAKLAND.

In San Francisco I learned that Babe Horton had been playing with a broken bone in his foot for more than a month. He refused to be taken out. The fracture is gradually healing, but the bone will always be out of shape. Also, Horton's throwing arm has been hurting him all season. Leaving the army, he was eager to get into the game, but he strained his wing by cutting losses too early in the spring. Just before the beginning of the last Angel-Bel series one of Horton's thumbs was almost knocked off. Ligaments were torn and since then the thumb has hung limp. When batting he is compelled to place his good hand partly over the injured one and hold the bat with both hands. Babe has kept his troubles to himself.

DEL HOWARD TO QUIT OAKLAND.

Frank Hoep, recently with the Seattle club, has been made a free agent. Hoep was about the park yesterday. He is not certain whether he will play any more ball this season. Hoep would be a handy man for any club needing a utility performer.

DEL HOWARD TO QUIT OAKLAND.

It is hardly likely J. Cal Ewing was speaking seriously when he said he would recommend that every umpire in the Coast League be canned at the end of the present season. The 1920 season started with an entirely new crew. Either that, or he was exceedingly peeved at the time. No such radical step was ever attempted, and neither does it seem practical. It may be that the present staff might be improved in spirit, but some of the ablest of the old hands should at least be retained as a nucleus. As a matter of fact there are a number of good umpires in the league.

DEL HOWARD TO QUIT OAKLAND.

Jim Morley is finding it difficult to get major league clubs to waive on the players wanted by the Angels, according to word received by President Powers. Morley may be able to land Bailey, a southpaw, but what he went after was a right-hander. Yet a southpaw who can win looks all right on any club.

DEL HOWARD TO QUIT OAKLAND.

NEW RECORDS HUNG UP IN TRAPSHOOT MEET.

DEL HOWARD TO QUIT OAKLAND.

ONE HUNDRED PER CENT. IS MARK FOR SMASHING THE 200 TARGETS.

DEL HOWARD TO QUIT OAKLAND.

[BY A. P. NIGHT WIRE.] CHICAGO, Aug. 12.—New records for the American amateur trapshooting championship and the professional championship of the grand American handicap trapshooting tournament were established this afternoon when the winners in the respective events, Frank M. Troch, Vancouver, Wash., and Bart Lewis, Auburn, Ill., broke the entire 200 targets through. The best previous performance at eighteen yards was by Troch here two years ago when he won the event with 195 of 200.

DEL HOWARD TO QUIT OAKLAND.

J. E. Jennings of Tadmort, Can., was second with 194. Woolfolk Henderson of Lexington, Ky., champion of that state, and T. L. Edens, Phoenix, Ariz., Arizona champion, tied for third place with 197. Henderson won the place in three shoot-offs.

LOCAL MEN COMING FINE.

Tom and Maury Win in Second Round Defeating Doyle-Harris.

BY FRED HAWTHORNE. [EXCLUSIVE DISPATCH.]

BOSTON (Mass.) Aug. 12.—The United States and Australia split even today in the two matches between the rival nations in the annual national doubles lawn tennis championship tournament on the courts of the Longwood Cricket Club at Chestnut Hill. Brooks and Patterson were triumphant over Richard Norris Williams, II, of Philadelphia, and Watson M. Washburn of New York, New England champions, by a score of 6-2, 6-3, 4-6. In the second round, while Frederick R. Alexander and S. Howard Voshell of New York, tri-state titleholders, vanquished R. V. Thomas and Randolph Lycett, the other Aussie pair, at 2-6, 6-2, 6-0, 2-6, 6-3, in the same brackets.

TOM AND MAURY.

In the other two matches in the second round, Maurice McLoughlin and Thomas C. Bundy of California defeated Conrad B. Doyle of Washington and Fred H. Harris of Vermont, middle Atlantic champions, by a score of 6-2, 6-3, 4-6. William M. Johnston and Clarence J. Griffin of California went through by default over L. Thalheim and Levin Lester, southwestern titleholders, who had evidently decided it would be useless for them to make the long trip from Texas to compete against a field of such high quality. Everybody here agrees that the southwestern pair showed splendid judgment.

TOM AND MAURY.

Patterson made a great impression with the Boston galleries in his match. It was the first time he has ever appeared in this city, and his tremendous smashing of lots, coupled with his "hurricane" service, did much to popularize him with Bostonians, who like action, dynamic and continuous, in their lawn tennis. Some of the young Austrians clashes with Williams at the net position were stirring in the extreme, the exchanges being lightning fast, and Patterson gaining the honors in a majority of the cases.

TOM AND MAURY.

There has been nothing comparable to his smashing and "killing" on American courts since McLoughlin was the "comet." The Australian has a much stiffer arm in bringing off these shots than our "Red Mac" did, but the results are just about as conclusive and paralyzing.

TOM AND MAURY.

Voshell's work stood out in the match, and he earned more points for his side than did Alexander, who was not going at his best today. McLoughlin was in better shape this afternoon than yesterday and put more life and snap into his playing, with Bundy backing him up splendidly all the way. The two old champions will have a better test of their speed and skill tomorrow when they clash with Johnston and Griffin, the men who won the doubles title in 1918 and retained it in the following year.

TOM AND MAURY.

Doyle was very good on his side of the net, his shots being clean-cut and effective, and many times he gained his point by making use of a wicked chop that sent the ball scudding on the slippery turf. Harris was the weakest of the four, but then, he was traveling in fast company!

MANY IN GOLF TOURNEY.

[SPECIAL CORRESPONDENCE.] DEL MONTE, Aug. 12.—Officials of the California Golf Association are out with the prediction that the largest entry in the history of the California golf championship tournament which commences here on the 30th of this month and concludes on September 9. Assurance is given that 200 men and seventy women will be in the competition, scheduled for the Del Monte first course.

MANY IN GOLF TOURNEY.

The entry list will also be more representative this year of all sections of the State. San Francisco and vicinity will send down its full quota of stars as usual and other towns in Northern California will have their champions at the first tee. Southern California golfers are coming up in a body to try and take back the beautiful trophy to their section of the State.

MANY IN GOLF TOURNEY.

Added interest is being displayed in the golfing event this year because Douglas Grace, the present champion, has made all arrangements to leave for England shortly after the completion of the tournament. He will make his home across the pond and it will be the last opportunity of the California golfing fraternity to have a crack at the player, who is known as "the master golfer." Mrs. Hubert Law, holder of the women's title, will also be on hand to defend her honor.

Mighty Four-Bagger Wins from Salt Lake.

RED'S HOMER BEATS BEES

(Continued from First Page.)

How under the circumstances was good for only two and three-quarters, and respecting the recent court decision, Rumber stopped at third. Sheeley fled to Crawford.

Refusing to restrain himself until two were out, Kenworthy kicked open the sixth with a single. Following a little monkey business in the way of a sacrifice and an infield out, Pittary popped off with his second single, which scored Kopec. Ellis walked in the eighth, and Pittary did also, following a sacrifice by Nichols. With runners on first and second, Killefer drove to Johnson. Brine threw to Krug, forcing Pittary. Krug threw to first in trying for a double, but was too late. Meantime, Ellis was putting one over on the visitors by scoring from second. Rube sure had his head up and his feet dusting.

For a couple of minutes in the ninth it looked as though the visitors might spoil the entire afternoon for us. By resorting to pinch hitters and everything, Eddie Herr managed to load up the bases. Tub Spencer, batting for Gould, cracked one between Kenworthy's wild and untamed plus. Levens went in to run for Tub, and was fended by Magner. Krug fled to Crawford. Dale, batting for Johnson, walked. The bases were now almost two and three-quarters full, and became completely loaded when Rumber spanked a single to right. Earl Sheeley, who hits so hard in Salt Lake that every time up he jars a ton of soft coal loose from a prominent dealer, was now up. Earl looked strong enough to rube the whole thing. But the

vital spark was not there. The best he could do was to emit a weak grounder, and Rumber was forced. The score:

SEALS COME OUT OF IT AND WIN GAME.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Aug. 12.—San Francisco opened the series with Sacramento today with a 2 to 1 victory. Casey Smith, pitching for the Seals, allowed only four scattered hits and pitched six hitless innings during the game. Sacramento held San Francisco scoreless until the sixth, when Caveney opened with a single, was sacrificed to second and scored on Schick's single to center. The Seals scored again in the eighth when

Zamlock scored on Koerner's sacrifice fly to right. The score:

LITTLE BEAR TO HAVE CARNIVAL OF SPORTS.

(BY A. P. NIGHT WIRE.)

Little Bear Lake is now preparing to jump into the limelight. As the majority of people think of the brainy proposition as being only a fishing one, the authorities are planning something a little different for August 16, and 17. On those two dates swimming races of twenty-five and fifty yards for both men and ladies, boat races, single and double oar, potato races, and baseball and a big barbecue are all scheduled. The merriest time in many a long day will be had, you better believe. The winners of the various festive events will all be set up to a nice trout dinner. Fishing at Little Bear is said to be getting better all the time, and many are running up by machine loads to take advantage of the fact.

AMERICAN LEAGUE.

(BY A. P. NIGHT WIRE.)

ALL READY FOR BIG N.A.G. CHAMPIONSHIP.

(BY A. P. NIGHT WIRE.)

NEW YORK, Aug. 12.—Secretary Howard F. Whitney of the United States Golf Association, announced today the entries and pairing for the national amateur golf championship, play for which will begin next Saturday morning at the Oakmont Country Club, Allegheny county, Pennsylvania.

There are 132 entries, but more are expected by mail from distant clubs before the tournament starts. Only two Canadian players are among the aspirants for the title but nearly all the prominent golfers in the country are on the list. Among these are six former winners of the title including Charles "Chick" Evans of Chicago, who won the last championship, played for in 1910 at Philadelphia.

The other erstwhile holders of the national honor who will try for it again this year are J. D. Travers, Upper Montclair, N. J., a four-time winner; Robert A. Gardner, Chicago, who won it twice; E. M. Myers, Allegheny, Pa., the 1908 winner; W. C. Fowness, Jr., of Oakmont, champion of 1910, and Francis Ouimet, the Boston player who defeated the favorites for the title at Ekwanok Country Club, Manchester, Vermont, five years ago.

FOR RETURN ENGAGEMENT.

Announcement was made yesterday by the management of the Alexandria that Grant and Wing, the exhibition dancers who recently appeared in special "stunts" on the ballroom floor of the hotel, have been secured for a return engagement, beginning this evening.

MARINE MAKES JUST 45 "BULLS EYES."

(BY A. P. NIGHT WIRE.)

CALDWELL (N. J.), Aug. 12.—A record of forty-five consecutive "bull's eyes" at 600 yards, without telescopic sights, was made here today by Corp. Clarence F. Kennedy of the Marine Corps rifle range detachment, Quantico, Va., in the members' match of the National Rifle Association. Although a perfect score consisted of only ten "bull's eyes," Kennedy continued shooting until he made a "four" on the forty-sixth shot. He averaged three shots a minute, a speed record for the match.

FOR RETURN ENGAGEMENT.

BIG STAKES TO GRACE DIRECT.

Takes \$3000 Prize in Field of Three Starters.

Homefast Wins the 2:13 Pace in Day's Best Contest.

Hollywood Kate Captures A. B. Mathews Cup in 2:08 Trot.

[BY A. P. NIGHT WORK]
PHILADELPHIA, Aug. 17.—Grace Direct, the speedy daughter of Walter Direct, won a hollow victory in the \$3000 stake for 2:06 pacers, the feature of the opening day of the Grand Circuit meeting. The race had only three starters and was decided in straight heats.
The 2:13 pace went four heats and furnished the best contest of the day. Ed Geer's Homefast, driven by Ben Walker, won the opening heat. Prince Pupper, the second, and Harper the third.
The three heat winners met in the fourth heat, which Harper won easily in 3:15.
The 2:08 trot for the A. B. Mathews cup and a purse of \$1000 furnished good racing. Oscar Watts took the first heat from Hollywood Kate, which got off to a bad start, but Dodge's mare easily outclassed

THE FIELD AND CAPTURED THE NEXT TWO IN CLOSE FINISHES. TIME, 2:07 1/2.

The other event was for Philadelphia horses only.
Summary:
The 2:06 pace, three heats, purse, \$1000: A. B. Mathews cup.
Heat 1: Grace Direct (Dodge) 2:11; Kate Homer (Dodge) 2:11; Oscar Watts (Dodge) 2:11.
Heat 2: Grace Direct (Dodge) 2:07 1/2; Kate Homer (Dodge) 2:07 1/2; Oscar Watts (Dodge) 2:07 1/2.
Heat 3: Grace Direct (Dodge) 2:07 1/2; Kate Homer (Dodge) 2:07 1/2; Oscar Watts (Dodge) 2:07 1/2.
The 2:13 pace, four heats, purse, \$3000: Ed Geer's Homefast (Walker) 2:13; Prince Pupper (Walker) 2:13; Harper (Walker) 2:13.
Heat 1: Homefast (Walker) 2:13; Prince Pupper (Walker) 2:13; Harper (Walker) 2:13.
Heat 2: Homefast (Walker) 2:13; Prince Pupper (Walker) 2:13; Harper (Walker) 2:13.
Heat 3: Homefast (Walker) 2:13; Prince Pupper (Walker) 2:13; Harper (Walker) 2:13.
Heat 4: Homefast (Walker) 2:13; Prince Pupper (Walker) 2:13; Harper (Walker) 2:13.
The 2:08 trot, three heats, purse, \$1000: A. B. Mathews cup.
Heat 1: Oscar Watts (Watts) 2:08; Hollywood Kate (Dodge) 2:08; Dodge's mare (Dodge) 2:08.

DEL MONTE, Aug. 12.—The ball teams will "hit the water" in the Roman plunge on Saturday and Sunday afternoon.

This will be something entirely new and novel and the Del Monte visitors are promised a treat.
An aggregation of Olympic Club swimmers, who call themselves the "Phoney Philmers" are coming down to cross bats and measure strokes with a team of local water men. The game will be played with a water polo ball and a small bat and floats will be anchored for bases. Instead of running to the bases and taking the long slides in to the dirt the contestants will swim and they will be permitted to dive to the bases.
[SPECIAL CORRESPONDENCE.]
Charley Small, Ernie Smith, George Bond, Sandy Goodman, Bob Hanjes, Otto Schultz and Harry McKenzie will be the visiting performers. Besides their ability as water baseball players, the "Phoney Philmers" put on a diving burlesque on the girls. Dressed as girls they cut up all sorts of capers on the spring board. They also have a "submarine act" and other freak stunts to provoke laughter from the spectators.
Serious swimming and diving exhibitions will also be staged during the two afternoons. Loren Lacey, Ben Dorcy, Harold Platt, Harold Schivers, Roland Noack and Eddie Martiotti are among the local men who will take part in the amateur aquatic feature.

AH HA! WATER BASEBALL.

Young George got his pugilistic acid test at Jack Doyle's pavilion last night when he tackled Steve Dalton the lion and pride of San Francisco. Oh, boys, but it was some scrap! Not a moment's drag in the four fast rounds. If the verdict depended upon a real test of points scored, we might allow Master George the winner. He let loose every sun in his battery and was on the full stretch all through the four fast and furious rounds. Dalton made a big hit with the packed house by his dogged determination and willingness to mix blow for blow at all times.
The San Francisco bear-cat depended on his boring-in tactics and a nasty overhead right and left to the face at close quarters. At this angle of the game he was easily George's master. The first round was Steve's by a shade. He easily took all that the S. F. shop's pet could deliver without flinching in the way of a tantalizing left jab to the nose and a sturdy right to the cheek.
FLUSH ON CHIN.
The second round was the local boy's by a small margin. About the middle of it he caught Dalton flush on the chin and had him wobble for a moment but failed to follow up his advantage. In the middle of the third session Steve jolted George with an ugly right under the heart and the latter fell into a crouch for a spell. The blow hurt George and he clearly showed it by a sickly smile. The first part of the final session was comparatively tame but from the middle of it to the end, both lads tore away for dear life and were hitting each other often and hard when the song sounded.
The consensus of expert opinion was that if the boys meet again, Dalton would be returned the winner. He gamely withstood all the best that George could deliver and was easily the stronger when it came to inflicting. George's right seldom stopped Steve from tearing right in for a slash at close quarters and in these visitations Dalton always had the better of the milling.
BUTTED FOR FAIR.
Cliff Jordan outslugged Johnny Celmar in the semi-windup. In the second round each of the principals was slipped a swig of goat's lymph and they rammed and horned each other for fair, both receiving nasty cuts over the left eye. Jordan finished the stronger and had the better of the last round. His right arm appeared to be tongue-tied throughout the entire bout. If Celmar would quit his useless covering up tactics and fight in the open he would do much better and had he done so last night, would probably have been returned the winner.
Frankie Tucker cleverly trimmed Gene Watson by centering his attack on Gene's bread basket. Gene put up a pretty fair scrap, but Frankie was too sturdy and determined for him. George Moss stopped Joe Golden in the first of the four rounds. Golden suffered from kidney underpinning. His dogs were so sluggish and awkward that he was accused of borrowing a pair of Charlie Chaplin's shoes and Charlie graciously acknowledged the loan. By the way—Golden as a comedian took the play from Moss. This maddened George to desperation; hence his putting the coup de grace on Joe in the first of the fourth.
Joe Miller beat Louis Garcia, and Eddie Hanlon trimmed Joe Gomez. Kala Pasha, the ace of Mack Bennett in the comedy line, was one of the distinguished visitors. Many of his friends hardly knew him as he had fallen away to almost a ton. Harry Sherman refereed and gave entire satisfaction to everybody, but Vic Levy and Charlie Chaplin.
Troubles Enough.
The Louisiana Times ascribes the several gray hairs newly arrived in the head of a Centrales man to the following events: He cranked his car while it was in the reverse which caused it to back across the yard and into a neighbor's yard in line with several women and children sitting under a tree. The car blandly passed over one of the women and her baby, fortunately clearing them both, however, the dust ran on the car just brushing their clothing. A couple of rocking chairs were next mowed down and then a last wild dash brought it against the side of a house in another yard where it tore out a hole in the weatherboarding and finally decided to stop.—[Kansas City Times.]
Where Icebergs Come From.
The source of practically all the icebergs of the Arctic and sub-Arctic regions is Greenland. Owing to the northward set of the West Greenland currents the bergs of this side are carried first to the north and it is only at about the 74th or 75th parallel of latitude that they begin to make their way westward to come down on the American side. The lowest point reached in the North Atlantic waters is about 40 degrees, which would be opposite the coast of the central part of New Jersey.—[Indianapolis News.]
A Literary Leak.
On the platform of a rural station stood a box consigned to a prominent citizen. The station master eyed it ever and anon. It was labeled as a package of books. He scrutinized the label and then he sent a message to the owner.
"There is a box of books here at the station consigned to you. But it is leaking badly, and if you don't send for it soon, there will be no books left."—[Baltimore American.]
Value of Oil Land Gains \$1,400,000.
[BY A. P. CORRESPONDENCE.]
AMARILLO (Tex.) July 16.—An oil company, formed here in 1918, and capitalized at \$10,000, was offered \$1,500,000 for its holdings, situated a few miles north of this city. The only data available at the time the company was formed concerning the possibilities for oil here was a report made to the United States Geological Survey in 1902. However, immediately after organizing, geologists were brought here, and the field was thoroughly explored.

For the Nation's Mightiest Trailer Load Allen Brothers Selected Goodrich Truck Tires

Los Angeles is a city that does things FIRST.

For example, Allen Brothers, Los Angeles contractors, have gone in to out-rival the freight car in shouldering heavy loads—they had built a trailer capable of carrying 100,000 pounds, and SHOD with Goodrich large single solid tires.

The first load these brawny tires were called upon to bear was a marine cylinder engine weighing forty tons—80,000 pounds, an enormous weight even for a box car.

And yet despite the prodigious strain, these burly Goodrich tires—four 40x10-in. tires on the rear, two 40x12-in. tires on the front—showed little indentation during the entire thirty-mile trip, nor on subsequent trips with even heavier loads.

These are the kind of tires to use under your loads—they've got the power, strength and quality to do things cheaper—more satisfactorily.

Act on Allen Brothers' recommendation—use Goodrich Truck Tires.

10,000 MILES ADJUSTMENT.

We Sell and Apply Goodrich Truck Tires.

— along about 6 o'clock —
how does your cigarette begin to taste?

NOTE—This is the severest test to which you can put your cigarette.

NEARLY dinner time. You've been smoking all day. How is your cigarette appetite?

If it is tired and jaded—in other words, unless it's as fresh, crisp and snappy as right after breakfast—you ought to look around for a different brand of cigarettes.

The right brand (when you find it) will let you feel fine and fit and smoke-hungry clear up to bed-time.

It will give you enough of the delicious flavor of Turkish tobacco—but it will be so blended as to off-set the over-richness or heaviness that comes from smoking too much Turkish.

The one cigarette which today seems to be attracting most men who tire of straight Turkish is Fatima (see at left).

As soon as you are ready to look seriously into the cigarette question, put Fatimas to the 6 o'clock test.

Ligarettes and Tobacco Co.

FATIMA

A Sensible Cigarette

Just enough Turkish

At most of the places where straight Turkish cigarettes used to have the "call", Fatima is now the leading cigarette. Here are a few of these places—just as examples of Fatima's popularity among men who really know how to judge cigarettes:

- Atlantic City
 - Marlborough-Blenheim
 - Hotel Traymore
- Boston
 - Hotel Copley Plaza
 - Harvard Club
 - Stock Exchange
 - Hotel Touraine
- Chicago
 - Auditorium Hotel
 - Congress Hotel
- Narragansett Pier
 - Casino
- New York
 - Hotel Belmont
 - Hotel Manhattan
 - Hotel McAlpin
 - Stock Exchange
 - Waldorf-Astoria
- Palm Beach
 - The Breakers
- Philadelphia
 - Ritz-Carlton
 - Stock Exchange
- Washington
 - The Capitol Building

*Fatima contains more Turkish than any other Turkish blend cigarette.

SOCIETY.

BY VIRGINIA WOODS.

For Wife of Navy Secretary.

Mrs. Daniels, wife of the Secretary of the Navy, was honor guest at a small but elaborately-appointed breakfast yesterday at which Mrs. Theodore B. Dockweiler assembled a dozen guests. The affair was given at the Los Angeles Country Club, the entire party leaving later for the Elbell Club, where Mrs. Matthew Robertson presided over a large reception in honor of Mrs. Daniels and the wives of the navy officers. The table was beautifully decorated in masses of rich shaded dahlias held in a big low basket. There were covered bouquets at each place. The visit of Mrs. Daniels here has been exceptionally happy, for she gave her opportunity to meet again two of her best California friends, Mrs. Dockweiler and Mrs. Denis, as well as Mrs. Henry Norman Jensen, a former Los Angeles girl who is here visiting relatives.

Mrs. Dockweiler has been at Balboa with her children all summer and returned to help welcome Mrs. Daniels. She is to chaperone a party of young folks a week-end yacht party on the Plover at Catalina. In the company will be her two debutante daughters, Miss Rosario and Mary Dockweiler, Miss Helen Davenport, Miss Jean McDonald, Gene Carey, William Young and George and John Dockweiler. They will attend the dinner-dance at the Hotel St. Catherine, Saturday evening. Miss Rosario Dockweiler was one of the attractive debutantes at the hall for Secretary and Mrs. Daniels and Admiral Rodman. She wore a gown of cerise tulle combined with silver cloth with a touch of French blue.

By Commander and Mrs. Ida.

By Commander J. Ida, Fleet Surgeon on Admiral Rodman's staff, and Mrs. Ida were dinner hosts Monday evening, entertaining for Commander D. A. Scott of the torpedo-boat destroyer Anthony and Mrs. Scott. Later they assembled their guests at the hall at Shrine Auditorium in honor of Secretary and Mrs. Daniels and Admiral Rodman. Mrs. Scott was one of the most striking figures at the hall in a creation of silver and gold cloth with bodice of silver sequins. She wore with this a marvelous bit of antique jewelry. Mrs. Ida and Mrs. Ida were in the receiving line at the reception given at the Elbell Club for Mrs. Daniels and the wives of the navy officers.

By Mrs. Macdonald.

Mrs. Mary Macdonald has just returned from a visit with Col. and Mrs. Fletcher Dutton at Fort Meade. While gone she was the recipient of many social courtesies in the army. Mrs. Donald Macdonald of 3920 Wilshire boulevard was hostess at a dinner party at which her guests were Mrs. and Mrs. Benjamin Hapgood, Mrs. Charles Elyon, her mother, Mrs. and Mrs. Thomas Heffron, Mrs. Merick Reynolds.

ELSA RYAN EXPLAINS.

TELLS HOW SHE GOT JAZZED.

ALL UP ON DATES.

By Grace Kingsley.

"Am I or am I not entitled to the flowers?" began Elsa Ryan, star of "Tea for Three," at the Mason this week, as she presided over a tea table at the Alexandria yesterday.

"I did," answered Miss Ryan.

"Then you are," I said, "but what's the story?"

"Oh, it's a mystery affair," replied Miss Ryan, "deep dark mystery."

That is, it was when I got the flowers. You see, it's this way: I got a warm cordial letter immediately on my arrival here Monday, signed by a wonderfully interesting-sounding Italian name, and inviting myself and my husband to be guests of the sender at her Pasadena home. I thought it was nice of her, but I groped when she said I'd be glad to have a boy of my own; but why the excitement?

Then I remembered: When I was out here several years ago I had given a poor Italian woman some money. I was poor myself—only got \$15 a week then—and she was even more financially embarrassed. Besides which, her husband was in the penitentiary.

But, I thought to myself, 'what's to do me a good turn, knowing how I'd been treated?' I thought, 'I'll do it.' The story now approaches its climax. I received the wonderful big basket of flowers on Monday night and between the first and second days there came a knock at my dressing-room door. I called 'Come in,' and in walked a very handsome Italian woman leading three children by the hand. 'Ah, how my fortunes have changed!' I thought.

"How's your husband?" I asked, and did he get out of—out of prison all right?

"Prison? What do you mean?" demanded the lady.

"Oh, I was to explain, 'I was thinking—' She forgave me apparently, and said she wanted me and my husband to stay with her family. C. Bryant, Mr. and Mrs. R. J. Swan, Miss Ingrid Johnson of Chicago, Miss Victoria Patterson of Chicago, Miss Bertha Lee of Chicago, Mr. C. Connelly, Mr. J. McPherson, Mr. C. Connelly, Mr. J. B. Buttle and Mr. C. C. Have You a Home?

To be a home in the true sense, it must be your very own. A leased or rented dwelling hasn't the atmosphere, the permanency—cannot possibly represent the love and pride you find in the home you really own.

To own your home is a duty you owe your family, the community and the nation. Now is a most favorable time to fulfill it.

Let us help you finance and plan it. If you have the land and some cash, we will loan you the balance on easy terms. We can show you a great variety of excellent designs, help you make a selection and provide complete plans at a good saving.

Call or write for information.

NEW YORK STOCK EXCHANGE

(BY A. P. NIGHT WIRE.)

In fundamental conditions touching upon the stock market, call money remaining comparatively easy, despite misgivings created by the heavy withdrawal of Federal deposits.

The industrial situation was more favorable. Additional capital underwritings were reported, including the formation of a syndicate for the sale of the new United States Rubber common stock. Rumors dealing with new foreign loans, with intimations of a French municipal offering, were said to be premature. Incidentally, exchange on Paris was slightly firmer, rates to other important centers also improving.

Bonds were more steady than the stock list, although Liberty issues yielded slightly and international were irregular. Total sales, par value, were \$11,275,000.

United States bonds were unchanged on call.

FINANCIAL AND TRADE REVIEW

(Continued from Eighth Page.)

1934 to 1933, were marketed and practically sold at prices, according to maturities, to yield from about 9 1/2 per cent. They are redeemable at the option of the company at 101 1/2. The bonds are a first mortgage on 15,000 acres of timber land in De Norte county, comprising over 1,000,000,000 feet of redwood, exclusive of fir, hemlock and spruce. The property was appraised and valued at \$2,500,000. The cutting and removal of the timber is well protected by these conditions, and a semi-annual payment to the trustee, the Union Trust Company, of \$100 per thousand. Practically all the domestic and foreign markets for redwood are supplied from three counties in the northern part of California.

California Metal Mining.

The outstanding feature of metal mining in California during the first half of 1919 has been the restriction of the operations of some of the principal productive properties, have not been so seriously affected as the quartz mines, yet their costs have been greatly increased and they have had difficulty in obtaining sufficient competent help. The war surcharge cost for electricity has been the greatest burden borne by the gold dredgers, who assert that the voltage has gone down while the rates have increased. The first six months of 1919 the United States Mint and the local smelters and refineries, to which the output of the mines in California is sent, received from the mines in the State \$300,573 less and \$24,511 less silver than during the first six months of 1918, but as the annual output of gold is now \$17,000,000 to \$20,000,000, this difference is not so great. The output of the two years is insignificant. In 1918 there was a falling off in the production of gold, compared with 1917, of over \$12,000,000, but a small loss in the first half of 1919 compared with that in the first half of 1918. The decline in the output has been materially checked, and that under normal conditions the output of gold in the State will be a large figure.

CARNEGIE FUNERAL TO BE HELD ON THURSDAY.

LIST OF THOSE WHO WILL HEAR LAST RITES OF GREAT IRON-MASTER GROWS.

(BY A. P. NIGHT WIRE.)

LENEX (Mass.) Aug. 12.—The number of those who will hear the funeral rites over the body of Andrew Carnegie at 10:30 o'clock Thursday morning will be greater than was expected. It was originally planned to have them at the service, limited closely, but since the death of the once great ironmaster, word had been received from more and more of his close associates and the list of those expected has gradually expanded.

Rev. Dr. William Pierson Merrill, pastor of the Brick Presbyterian Church of New York, of which Mrs. Carnegie is a member, will officiate, assisted by Rev. Benson N. Wyman, pastor of the Lenox Congregational Church.

The plans for the removal of the body to Tarrytown, N. Y., have been withheld as it is the wish of the family that the transfer be made with as little publicity as possible. There were few callers today at Shadowbrook.

Among the guests at the Aspinwall is perhaps the only former associate of Mr. Carnegie who is his elder and survives him. This is Chauncey D. Depew, now in his eighty-sixth year, and who spoke today of Mr. Carnegie as his junior.

Recalling how Carnegie had devoted millions in efforts to prevent war, he said that the world conflict had broken Mr. Carnegie's heart and that the ironmaster was never the same after war was declared.

"He became obsessed with the idea," said Mr. Depew, "that the future of the world depended on the abolition of war. He created a permanent fund for the propaganda of peace. He built the palace at the Hague for his home."

"I never knew anyone so interested in any one thing as he was in the peace of the world. He firmly believed that his efforts to prevent war would succeed. When war came, surpassing in its tragedies, it broke Mr. Carnegie's heart. He was never the same again."

SOCIETY TAKES TEA WITH KING AND QUEEN

ENGLISH ROYALTY ENTERTAINS AT GARDEN PARTY AT BUCKINGHAM PALACE.

(A. P. FOREIGN CORRESPONDENCE.)

LONDON, June 27.—English society took its tea this afternoon on the lawn at Buckingham Palace, the guest of King George and Queen Mary. It was a simple affair, and among the guests were many of the royal family, including the Duke of York and the Duchess of York.

The King and Queen were accompanied by the Duke of York and the Duchess of York, and by the Duke of Devonshire and the Duchess of Devonshire. The guests were seated on the lawn in front of the palace, and the tea was served by the palace staff.

Oklahoma Oil Leases

Recent developments indicate Murray County to be connecting link of Mid Continent-Healdton and Texas fields, since production from 200 to 300 acre blocks and locations made for a number of additional wells.

Reports from eminent geologists are favorable who believe this to be next big pool.

I offer for sale five-year commercial leases on three tracts near wells now drilling or to be drilled at once. Will sell in parcels from twenty to one hundred acres. Price twenty-five to fifty dollars an acre.

I am an oil speculator or lease broker, but am postmaster of Sulphur, the county seat of Murray County, and own in fee the land the leases are to be given on.

Will be in Los Angeles until sixteenth and will be pleased to go into the matter personally with any one interested.

FRANK EMANUEL

3910 S. Broadway Phone South 6374-J

IN THE GUSHER DISTRICT

Have you watched the developments in California's newest oil field located in Orange County near Rindfield within 20 miles of Los Angeles. The present reports from the Gusher field are that the oil is being produced at a rate of 100,000 barrels a day. This strike was made on the Chapman Ranch. It was a 20,000 barrel well.

The Rindfield-Torco Oil Company, a California Corporation, has a permit to operate in this State. Their property is located near where the Rindfield Gusher is being produced. A small amount of stock is being offered to the public at 25 cents a share. The company is doing, and will take you to the Rindfield-Torco property. Seeing is believing.

JAPAN IS WORRIED AT INCREASE IN STRIKES.

(A. P. FOREIGN CORRESPONDENCE.)

TOKYO, July 1.—The increasing tendency of the Japanese workers to assert their rights and to interest themselves in Socialism is causing leading Japanese to study the means of meeting this labor problem. It is pointed out that strikes are increasing and that as Japanese labor has no organized voice, the strikes are liable to lead to dangerous violence, as in the case of the rice riots last year.

The Herald of Asia says that there is a considerable element affected by Socialist theories, but that owing to the severe repression imposed by the authorities there is no means of knowing how far Socialism has spread. The journal adds: "That the bacteria exists here, there is no doubt. It is kept under so far, but it only smolders, ready to break out on occasion. If Socialism can not legitimately raise its head, then it will try to do so surreptitiously, and the result is Bolshevism and anarchy."

The journal recommends immediate and effective improvements of labor conditions in line with the suggestions of the League of Nations, political and educational reform, the elimination of bureaucratic methods and a true restoration of the ideal of democracy.

The American Chamber of Commerce in London compares this company to the \$20,000,000 American Foreign Trade Corporation, organized to develop American trade in the near East and which is establishing headquarters in Constantinople, Smyrna, Syria and on the Black Sea and suggests that interesting competition will result.
